

# APU® Articulating Ankle Foot Orthosis

## Features

- › Clinically proven for effective ambulation\*
- › Sagittal plane adjustability (+ or - 30°)
- › Also available for the inclusion in custom-made thermoplastic AFO and KAFO systems. Refer to our PKA™ PRAFO® product line
- › Compatible with all liner variations that we offer, if applicable
- › Proven superior integrity of the superstructure\*\*
- › Available in Adult standard #652SKG and Adult heavy duty #682SKG

\*\*Heel Strap positioned inside the heel connecting bar for display purposes only

## Uses

- › Early Intervention for the evolving rehab patient. **See:** American Heart Association Stroke Management ←[Link](#)
  - ›CVA,TBI,SCI and Diabetic neuropathy
- › Facilitation of functional knee and ankle joint position through flexibility of aluminum posterior upright.
  - › Allows for optimal dorsi/plantar flexion ankle positioning to provide adequate clearance during swing phase and knee stability in stance phase.
- › Post musculoskeletal injury of the foot and ankle (Heavy duty version recommended, product #682SKG)
  - › Post TAL immobilization
  - › Post Botox or serial casting
  - › Stable fractures of the foot and ankle
  - › Tendon or ligamentous tear/rupture

Sagittal plane adjustment which adjusts for plantar/dorsi flexion of foot/ankle complex
