

# DUAL ACTION Articulating Ankle Foot Orthosis

653SKG Adult Kodel Gun Metal

## Features

▶ The Dual Action Orthosis offers patients the same outstanding features of our APU® (Adjustable Posterior Upright) Orthosis and the EV™ (Equino-Varus) Orthosis in one, with + or - 30° adjustments in Dorsi/Plantarflexion and Varus/Valgus.

\*\*Posterior ankle strap is shown inside upright for photo. When fitted properly, the strap is outside posterior upright bar.

## Uses

- ▶ Offers measurable adjustability features for the ambulating patient
- ▶ Proper support and heel suspension for the recumbent patient.
