# MAKERS

## Why hire a Makers apprentice?

## 46% women and 54% underrepresented ethnic groups

● Women  ○ Men

46% of Makers apprentices are women, more than double the industry average (19%). Using your apprenticeship Levy to hire individuals from underrepresented backgrounds is a great way to diversify your tech team.

## 8+ years of expertise

As Europe's original coding bootcamp, Makers is the industry expert at training software developers. For 8 years, we've been transforming complete beginners into job-ready developers — equipping them with the skills to master any language, tool, and framework.

8

## Commercial experience

Our apprentices aren't your typical school leavers. We attract world-leading talent from a wide range of industries, from neuroscience to 3D animation.

## Trusted by 50+ companies

We've provided over 50 businesses with more than 350 talented apprentices across software development and engineering, including industry-leading businesses like Google, Capgemini and Comparethemarket.

comparethemarket    Capgemini    deliveroo    Google

FT FINANCIAL TIMES    Home Office    SB Simply Business    British Gas    Deloitte. Digital

Department for Work & Pensions    JIGSAW X Y - Z    Ministry of Justice    ELSEVIER

## Ministry of Justice

"We got to work with industry-leading bootcamp Makers Academy who demonstrated an appetite for innovation that mirrored the approach of our Chief Digital and Information Officer."
