

ANSI 3550 Series

Effective January 1, 2020

Supersedes February 18, 2019

1. Select a pump size, then select material of construction, then determine frame size (all prior to adders)
2. Standard pumps include graphite packing, standard packing gland, standard bore seal boxes, Aramid fiber with EPDM rubber gaskets, oil lube bearings, 150FF flanges and 316SS sleeves (on DI, 316SS, CD4M pumps) while all other sleeves are same material as pump construction.
3. Next, add for seal box, motor, baseplate, cartridge seal, mechanical seal flush plan, coupling and coupling guard.
4. For kit pricing, select liquid end, power end or seal box and then add options/adders.
5. PRICING SUBJECT TO CHANGE WITHOUT NOTICE.
6. REFER TO ENCOMPASS FOR MOST ACCURATE PRICING AND SELECTION TABLES

Pump Assemblies Page 1 Optional Adders Pages 2-7 Kits & Parts Pages 8-14

3550 Bare Pump (150# flanges, 4140 sleeved shaft, 316SS sleeve, std bore seal box w/ packing and gland)

1. All tests subject to conditions presented in marketing information. Testing with customer's driver is limited to standard squirrel cage motors. We will test with other types of customer's drivers, such as wound rotor motor, magnetic couplings, etc. with prior arrangements, special pricing and increased shipping schedule. NPSHR test requirements and all special requirements must be referred to the AE Dept for pricing.
2. Local registered professional engineers are available, at customer's expense, to observe testing.
3. Multi-speed test price is per speed run other than maximum and must be added to the performance test price.

General guidelines for BB or SB selection: (always consult your seal manufacturer to verify)

A SB fits most all mechanical seals/packing & is typically used along with a flush for mild/clear fluids at ambient temp

A Big Bore (BB) can typically be used along with a flush for most services

Glands for component seals must be purchased from the seal manufacturer

Seal Glands are a custom part and vary by seal type and seal manufacturer

Bent Carbon Steel Baseplates (includes grout, foundation, and pump mounting holes)

Baseplate Size	P/N	List	Wt
15" x 45"	AN245 3980 F	\$966	80
18" x 52"	AN252 3980 F	\$1,337	150
21" x 64"	AN264 3980 F	\$1,387	230
26" x 80"	AN380 3980 F	\$2,278	373

All other tapping and drilling to be provided by customer.

Contact Factory for Drip Rim on Steel Base. No risers included.

3550 Casings #100 (includes casing with 150FF Flanges) (drilled/tapped for drain and gauge/flush, plugs included)
