

LEG PILLOWS

3 Options Available:
Original, Memory Foam, and Cool

SUPPORTS & ALIGNS YOUR LOWER BODY

Restores Back, Hips, and Knees Alignment

Doctors often recommend a leg pillow for people that wake up stiff, sore and with lower back pain.

Studies show that using a pillow between the knees when people sleep on their side will help reduce stress on the hips and lower back. Restore natural alignment and reduce pressure on the hips, knees and joints with the Contour Leg Pillow! This small pillow will make a big difference in back, hip, and knee alignment.

- Helps Align Lower Back
- Ideal for Side Sleepers
- Cushions Knees
- Stabilizes pelvis and hips
- Ventilated cushion & cover
- Restores spine alignment

3 Support & Comfort Options

ORIGINAL LEG PILLOW

Soft Velour Cover
High-Quality Medical Grade Foam

MEMORY FOAM LEG PILLOW

Soft Velour Cover
100% Memory Foam

COOL LEG PILLOW

Premium, Cool Cover
Cool Gel infused Memory Foam

LEG PILLOWS

Perfect for Side Sleepers

3 Inner Core Options

The Original Pillow is made with high quality, medical-grade foam for firm support and maintains its shape during the night

The Memory Foam Pillow uses 100% premium, soft memory foam for firm support that contours for a customized fit

The Cool Pillow uses two layers of foam - firm support foam and gel-infused memory foam for a cool night's sleep

Restores Natural Alignment

Aligns back, hips and knees for the ultimate comfort

Hourglass Shape

Conforms to the exact shape of the leg for a natural comfortable fit

No Bone On Bone Contact

Prevents your knees from rubbing together

Super Soft Covers

The Original and Memory Foam Pillows are covered with a plush, velour fabric. **The Cool Pillow** is covered with a breathable quilted fabric

Machine Washable Covers

Simply unzip the cover to remove and place it in the washing machine

Restores Alignment of Back, Hips, and Knees

No support between the legs can strain lower back, hips, and knees

Contour's Leg Pillows restore natural alignment, and reduce pressure on hips, knees, and joints
