- Aids in knee surgery recovery
- Constructed of medical grade foam
- Soft, velour cover is zippered, easy to remove, and machine washable

Merchandises Beautifully.

Our packaging is eye catching and informative, allowing potential customers to make a buying decision quickly and easily.

KNEEZUP

Gradual Incline

Elevates knees to a 30° angle so joints and muscles can relax, rest, and rejuvenate.

Soft, Velour Cover

The soft cover has a zipper for easy removal. Machine washable.

Doctor Recommended

Resting with elevated knees aids circulation, and injury or surgery recovery.

Knee Elevation

Helps increase blood flow to the lower extremities.

Hypoallergenic, High Density Medical Support Foam

Firm enough to keep its shape, soft enough to ensure your comfort.

Elevated Knees Reduce Pressure on the Lower Back

Before

Lack of support can cause poor spinal alignment.

After

Elevated knees reduce pressure on the lower back by allowing the lumbar curve to flatten out.
