Growing from seed saves up to 81 %

Product Information

- **Fully Automated Growing System** Program the light, watering and humidity for optimal growth. It comes with 39 preprogrammed cycles for the most common greens, PLUS you can add your own.
- **High Output Growing Lights** High output T5 growing lights replicate the sun's rays. Diffuser panels evenly distribute the light.
- **Automatic Watering System** The **GardenChef™** system features water pump with filter pump for irrigation. It can be manually filled or hooked up to city water and drain.
- **Separate Growing Zones** Each zone accommodates two 10"x20" growing flats.
