

# Camper

Campers are larger than micro motorhomes but typically smaller than Panel Van derived or Coachbuilt Van derived motorhomes.

Campers are often converted from Volkswagen "T Series" vans or other people carriers. Campers are usually single or twin berth, and may have a fixed roof, high top or pop-top roof.

Motorhomes based on larger commercial vehicle or van chassis, anything with a Gross Vehicle Weight of more than 3,000kg, do not fall under this category.

Campers will very rarely have shower facilities and either no toilet or a very basic chemical toilet.
