With Global Jet Capital as your financing partner, you have the flexibility to fold progress payments into your permanent financing structure—and put your capital to work elsewhere...

Put a cap on your capital overlays.

Building a new aircraft can be a multi-year process. Manufacturers require that installment payments be made to cover cost of materials and manufacturing. We can help you finance these installments—generally referred to as progress payments. When the aircraft delivers, we can seamlessly roll the investment into the term product of your choice—operating lease, a finance lease or loan. Only offered by providers specialized in business aviation such as Global Jet Capital, progress payment financing allows you to minimize the amount of capital tied up in the period prior to delivery.

Experience: We began as the legacy corporate aircraft funding business of GE Capital and have served the business aviation community for decades, having completed thousands of successful transactions.

Commitment: GJC is capitalized by the world’s leading private equity firms: The Carlyle Group, FS/KKR Advisor, LLC (a KKR partnership with FS Investments), and AE Industrial Partners. In addition, we maintain a substantial bank operating-line and have issued over $3.6B in highly rated ABS funding issuances. We are leaders in business aircraft financing solutions with the experience and committed capital to grow our business for the long term.

Expertise: When coupled with our commitment to understanding your needs, our long-standing business aircraft financing experience and knowledge allows us to deliver customized solutions that simplify your aircraft ownership experience.

Simplicity: We take pride in providing you with a straight-forward, flexible, highly-responsive, and solution-oriented experience.

WHY GLOBAL JET CAPITAL?

Here are just some of the reasons why corporations and HNWIs around the globe are choosing to finance their business aircraft through Global Jet Capital...
