

## WHY GLOBAL JET CAPITAL?

Here are just some of the reasons why corporations and HNWI's around the globe are choosing to finance their business aircraft through Global Jet Capital...

**Experience:** We began as the legacy corporate aircraft funding business of GE Capital and have served the business aviation community for decades, having completed thousands of successful transactions.

**Commitment:** GJC is capitalized by the world's leading private equity firms: The Carlyle Group, FS/KKR Advisor, LLC (a KKR partnership with FS Investments), and AE Industrial Partners. In addition, we maintain a \$1B bank operating-line and have issued over \$2.3B in highly rated ABS funding issuances. We are leaders in business aircraft financing solutions with the experience and committed capital to grow our business for the long term.

**Expertise:** When coupled with our commitment to understanding your needs, our long-standing business aircraft financing experience and knowledge allows us to deliver customized solutions that simplify your aircraft ownership experience.

**Simplicity:** We take pride in providing you with a straight-forward, flexible, highly-responsive, and solution-oriented experience.

## WHY A GLOBAL JET CAPITAL OPERATING LEASE?

A Global Jet Capital Operating Lease provides an ownership experience without being in the full business of owning an aircraft, which includes the following benefits...

**Reduced Risk and Predictable Expenses:** Offload all future market value to the lessor in exchange for a fixed set of lease payments that will not change over time.

**Conserve Capital:** Monetize up to 100% of the value of the aircraft, conserving capital for investment in other more profitable ventures.

**Disposition Certitude:** The GJC "end-of-lease return option" provides a built in "buyer" for your aircraft at lease-end for eventual ease of disposition. This enables a smooth transition into your next aircraft avoiding the cost, time on market delays and hassle typically associated with aircraft sales.

**More Efficient Tax Treatment:** For many business aviation users, rents under an Operating Lease are an efficient, long term tax-deductible expense.

**Flexibility:** We take our cue from your operational needs. The lease allows for early termination to upgrade, acquire or dispose of the aircraft should your needs change during the term.

**Keep Your Bank for Banking:** A GJC Operating Lease provides substantial funding for a depreciating asset that is separate and apart from other primary bank facilities.

**Greater Privacy:** An Operating Lease reduces visibility to an aircraft's end user, as the public records of the FAA would identify Global Jet Capital as the owner of the aircraft.
