

Why Global Jet Capital?

Here are just some of the reasons why corporations and HNWI's around the globe are choosing to finance their business aircraft through Global Jet Capital...

Experience: We began with the acquisition of the corporate aircraft funding business of GE Capital and have served the business aviation community for decades, having completed thousands of successful transactions.

Commitment: With world-class investors and access to multiple channels of capital liquidity, we have firmly established ourselves as leaders in business aircraft financial solutions with the experience and committed funding to grow its business for the long term.

Expertise: When coupled with our commitment to understanding your needs, our long standing business aircraft financing experience and knowledge allows us to deliver customized solutions that can reduce your risk while protecting your capital.

Simplicity: We take pride in providing you with a straight-forward, flexible, highly-responsive, and solution oriented experience.

In today's challenging environment, flexibility and putting your capital to work is more important than ever. Global Jet Capital can help you unlock the equity in your aircraft—and still keep you flying.

Instead of tying up millions of dollars owning an aircraft, you can free up capital by selling Global Jet Capital your aircraft and leasing it back. Global Jet Capital then becomes the lessor and you become the lessee – with the added potential benefit of positive balance sheet treatment. Best of all, you keep the access to your own aircraft.

Consider the Advantages:

Immediate access to cash for other needs— or investment in profitable ventures

Predictable fixed monthly payments

Significantly lower cash outlay

Remove residual value risk

Increased Privacy

At the end of the lease, return aircraft to us and you don't have to worry about a tedious sale process or cost
