

SUGGESTED FORMULA

Benzonatate 50mg/2mL Concentrate in Suspendol-S™ [Paddock Perrigo]

Version number: 1.0

Volume: 100mL

Benzonatate	2.5gm
Glycerin, USP (G1016)	10mL
Suspendol-S™ [Paddock Perrigo]	q.s. 100mL

***This formulation is intended for patients who have difficulty swallowing solid dosage forms. Use caution for use in children under 10 years old. FDA approved Benzonatate in 1958. Current FDA caution regarding inappropriate use and overdose in children. (December 2010) Patient or caregiver must be instructed with a calibrated dosing device.**

SUGGESTED COMPOUNDING PROCEDURES

1. Calculate the required quantity of each ingredient for the total amount to be prepared
2. Accurately weigh and/or measure each ingredient
3. With sterile syringe, withdraw the calculated Benzonatate from the perls.
4. Thoroughly mix the Benzonatate fluid drawn from perles and the glycerin to form a thick concentrated suspension
5. Geometrically incorporate the Suspendol-S™ in the Benzonatate mixture for form a homogenous gel suspension and bring to volume.
6. Package in 30mL or other smaller dispensing container with calibration device and label each
7. Suggested Quality Assessments – follow pharmacy SOPs:
 - a. Weight to Volume calculation
 - b. Color
 - c. Pourability
 - d. Settling
 - e. Resuspendability

***Do not drink Alcoholic Beverages with this medicine**

***Keep out of reach of children**

***Shake well**

***May cause Drowsiness**

***For Oral use Only**

Store in air tight amber glass container

No claims are made as to the safety or efficacy of this preparation. This formulation is provided solely at the unsolicited request of the pharmacist.

Beyond-Use Dates of preparations are conservative estimates by the formulator using reference books, peer-reviewed literature, and intended duration of therapy, formulation from commercially available products, organoleptic observations and current USP guidelines. Compounders may have stability studies performed by a reputable laboratory if they wish to extend the Beyond-Use Date. It is recommended that you follow USP <795> recommendations for potency testing.

Beyond-Use Date should be assigned based on the current USP <795> Standards

Precautions should be taken to prevent cross-contamination and exposure of ingredients to the compounder and contamination of the preparation by the compounder. Wear appropriate protective equipment. Use safety enclosures (hoods) when weighing and mixing.
