

### SUGGESTED FORMULA

---

Pilocarpine Hydrochloride 5mg Lollipops

Version number: 1.0

Volume: 40 lollipops

---

Pilocarpine Hydrochloride	0.2gm
Ethyl Alcohol 95%, USP (ET108)	8mL
Saccharin Sodium Dihydrate	q.s.
Sorbitol Lollipop Base	q.s.

---

**Note: It is necessary to calibrate the molds being used and adjust the formulation accordingly.**

**Crème De Menthe Flavor is recommended for this formulation**

### SUGGESTED COMPOUNDING PROCEDURES

1. Calculate the required quantity of each ingredient for the total amount to be prepared
2. Accurately weigh and/or measure each ingredient
3. Melt the Sorbitol Base to 110°C, make sure it is free of lumps and let it cool to room temperature
4. Disperse the Pilocarpine Hydrochloride in 8mL of Ethyl Alcohol
5. When Step#3 cools to 90°C, add the Pilocarpine in Alcohol solution slowly into the melted base
6. Maintain the temperature at 90°C and continue to mix until homogenous
7. Add the Sodium saccharin Dihydrate and flavor
8. Draw up melted mixture and fill molds according to Pharmacy's SOPs.
9. Suggested quality assessments:
  - a. Appearance, feel and melting test
  - b. Color
  - c. Label (s) - auxiliary labels (Keep out of the reach of children), storage, BUD

Store in light resistant air-tight container.

Store at Controlled Room Temperature

No claims are made as to the safety or efficacy of this preparation. This formulation is provided solely at the unsolicited request of the pharmacist.

Beyond-Use Dates of preparations are conservative estimates by the formulator using reference books, peer-reviewed literature, and intended duration of therapy, formulation from commercially available products, organoleptic observations and current USP guidelines. Compounders may have stability studies performed by a reputable laboratory if they wish to extend the Beyond-Use Date.

It is recommended that you follow USP <795> recommendations for potency testing.

**Beyond-Use Date should be assigned according to the current USP <795> Standards**

Precautions should be taken to prevent cross-contamination and exposure of ingredients to the compounder and contamination of the preparation by the compounder. Wear appropriate protective equipment. Use safety enclosures (hoods) when weighing and mixing.

Although much attention has been paid to ensure the accuracy of the formulation contained here, Spectrum Pharmacy Products accepts no liability for the loss or damage arising from reliance on the information. Compounding pharmacists using this formula take full responsibility for the formulations and hold Spectrum Pharmacy Products and Spectrum Chemical Mfg Corp. and its officers, directors and employees harmless for any claim arising from use of or reliance on information contained therein.
