Supply & Demand Chain Executive Announces 2021 Pros to Know Winners

This award recognizes outstanding executives whose accomplishments leverage supply chains for competitive advantage

Fort Atkinson, WI – March 17, 2021 – *Supply & Demand Chain Executive*, the only publication covering the entire global supply chain, announces the winners of its 2021 Pros to Know award.

This award recognizes outstanding executives whose accomplishments offer a roadmap for other leaders looking to leverage supply chain for competitive advantage. This year's list includes individuals and teams from software and service providers, consultancies and academia, trucking and transportation firms, professional development agencies, sourcing and procurement divisions, and more, all who have helped supply chain clients and the supply chain community at large prepare to meet many of today's—and tomorrow's—challenges.

"While many companies have struggled to re-gain their footing as a result of COVID-19, this year's Pros to Know winners stepped up to the plate to deliver innovative solutions and programs in a time of crisis and need. These winners collaborated, optimized, developed, educated and played a critical role in the survival and success of their company amid a global pandemic," says Marina Mayer, Editor-in-Chief of *Supply & Demand Chain Executive* and *Food Logistics*. "I am honored to recognize these individuals and teams, and extend my utmost gratitude to everyone in the supply chain industry for their time, efforts and innovations to keep our nation's supply chains afloat."
