One tool for all industrial remote access cases
Let's connect.

Have full control from anywhere at any time

Weidmüller ꓢꓔ

Special offer for a limited time

1. u-link Remote Access Service

u-link guarantees fast and secure access to machinery and equipment while allowing efficient management of production equipment, user clients, access rights or firmware versions.

The intuitive u-link web portal can be quickly and easily configured and adapted to specific processes without expert knowledge. Secured servers offer an Online platform that ensures conformity between different IT systems in the execution of remote maintenance.

2. LTE Security Router 2GT
Integrated LTE & 4G modem

*possible combination
