

Celestino Garza

VP of Engineering

Celestino is an Engineering leader with an extensive background in rapidly scaling international startups and leveraging technology to achieve high growth targets. Before joining Paystand as our VP of Engineering, he was the CTO at Sr Pago – the first mobile payments company focused entirely on the Mexican unbanked and underbanked market. The company quickly became a fintech leader in Mexico, and also offers an unmatched payment facilitation platform for e-commerce payments.

Celestino has also held leadership roles at Clip and Wizeline, two of the fastest growing companies in LATAM. Before that, he began his career as the cofounder of Transnetwork, one of the top early cross-border payment companies.

Celestino has dedicated his career to building teams, and he specializes in propelling business expansion forward through his deep understanding of how technological innovation and consumer behavior converge.
