

SELF-DUMPING EZ DUMP HOPPER

Innovative Storage Container that Provides Maximum Safety for the Operator

The Sweed EZ-Dump Self-Dumping Hopper is the fastest, safest, easiest, and most economical way to load, transport, and dump scrap and bulk material.

Sweed's hopper is designed for forklift handling and offers a unique gravity-activated door latch that eliminates the need for hand trip levers or pushing a bin over. This system offers safe, hands-free operation, allowing workers to stay out of harm's way.

The top loading container is activated by tilting the mast of the forklift forward for complete discharge of contents. As the container tilts, the self-locking mechanism will release the door. As the container is lowered to the ground it will reset and the door will lock. Within a matter of seconds, the EZ-Dump Hopper is ready to go back to work!

PERFORMANCE DATA

Container Size	½ Cubic Yard
Hopper Length	33 ½"
Hopper Width	26 ½"
Hopper Height	36"
Base Length	39"
Weight (empty)	248 lbs
