

Polypropylene (PP) Strap

FROMM offers Polypropylene (PP) strapping that can be used in applications such as standard box strapping, bundling of newspapers, crate and box strapping in the food industry and multiple applications in a general warehouse setting.

Whatever the applications, the use of polypro strapping greatly increases productivity while reducing freight related cost.

Polypropylene (PP) strap manufactured by FROMM PACKAGING is designed specifically to meet the tolerances and specifications that ensure trouble free operation in all popular brands of strapping machines.

Available from the simplest 1/2 inch hand strap with plastic buckles to machine grade high-speed "state of the art" strapping

★ Features

- 5mm to 19mm strap width
- Hand or machine grade
- Blue, white and yellow standard colours
- Low dust formula
- Different core and packaging sizes

+ Benefits

- High breaking strain
- Controlled elongation
- Suitable for range of brands of machines
- Seals with friction, heat or metal seals
- Can print words and logos on strap
