

How to Define Close Contact

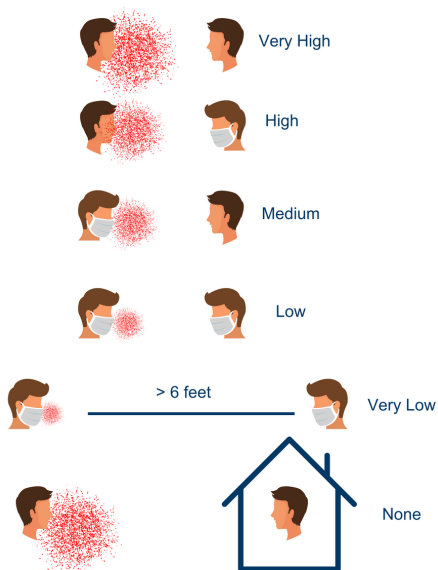

Do you have these unexplained symptoms?

- Fever or chills
- Cough
- Shortness of breath
- Unexplained Fatigue
- Unexplained Muscle or body aches
- Unexplained Headache
- New loss of taste or smell
- Sore throat
- Unexplained Congestion or runny nose
- Nausea or vomiting

What counts as close contact with COVID-19?

- You were within 6 feet of someone who has COVID-19 for a total of 15 minutes or more
- You provided care at home to someone who is sick with COVID-19
- You had direct physical contact with the person (hugged or kissed them)
- You shared eating or drinking utensils
- They sneezed, coughed, or got respiratory droplets on you

Probability of Contagion

Steps to Take

If you are experiencing any of the symptoms listed above or have had an exposure to COVID-19:

- Stay home for 14 days after your last contact with a person who has COVID-19.
- Watch for fever (100.4 ° F), cough, shortness of breath, or other symptoms of COVID-19
- If possible, stay away from others, especially people who are at higher risk for getting very sick from COVID-19
