Fixing Key Processes Affected by Remote Working:

Digital Mailroom
Scan@Home
Power PDF Advanced
DocuShare Flex

Managed HP Laptops (Device as a Service)

COST-EFFICIENTLY ALLOCATE DEVICES

Our analytics package gives us information like CPU, hard-disc and memory usage, so that we can suggest the most cost efficient devices for workers according to their usage.

COMPLETE PEACE OF MIND

Our Service Agents provide proactive support to resolve issues before they occur, as well as technical assistance.
Available: Mon – Fri
8am – 6pm CET in EMEA.

FLEXIBLE CONTRACT

Scale the number of devices up or down with a number of added features & service options. Designed to allow businesses to adopt a more flexible consumption-based model.

AUTOMATIC SECURITY UPDATES

Enterprise-class security from malware protection, real-time policy violation and firewall, and antivirus disruption alerts, plus find, lock, and erase.

ONGOING PREDICTIVE ANALYTICS

Insightful & actionable analytics to improve productivity for staff, prolong the life of your investments, take preventative action if there's a problem.

SUPPORTED GLOBALLY, DELIVERED LOCALLY

Devices are supported even if you are travelling abroad on business. This includes next business day replacement, and Accidental Damage Cover.

Fixing Key Processes Affected by Remote Working:

Access to your office post - anywhere, anytime, with Xenith Digital Mailroom

If you communicate with your customers through physical mail, but can't access the office, we can provide you with a fully outsourced solution to digitise your incoming mail.

Banish your paper processes & work remotely, with Kofax Power PDF Advanced

A quick and easy first step towards going digital, as it enables you to replace the most commonly used paper processes in your organisation including editing, signing, annotating, converting & securely sharing documents.

Scan to your workplace systems from anywhere, with Xenith Scan@Home

If you need to scan documents remotely, we have partnered with Kodak Alaris to setup a smart scanner that integrates directly into your line-of-business systems.

Increase productivity of staff with a single view of data, automated workflow & collaboration tools with DocuShare Flex

Access, search, edit and approve documents, securely share & collaborate on files as well as assigning tasks, managing workload and creating workflows without any IT intervention. Very scalable, you can add functionality as you need it.
