How can the research office contribute to happier researchers and better outcomes?

Researchers are overall satisfied with the level of support provided by the research office. However, researchers indicate that they feel time poor, lonely and stressed and are taking on many of the tasks themselves.

Findings from a survey of 300 researchers and interviews with senior members of research offices in the United States, the United Kingdom, and Australia.

The research office opportunity – research offices can reduce administrative burden on researchers and scale up support in key activities.

Researchers find sourcing funds and applying for grants the most difficult part of their role.

Researchers are overall satisfied with the level of support provided by the research office. However, researchers indicate that they feel time poor, lonely and stressed and are taking on many of the tasks themselves.

Do you need to demonstrate impact of your research to funding partners?

Base: All respondents (300)

In which of the following places, if any, do you have a profile associated with your academic work?

Researcher profiles are scattered across many channels

Demonstrating Impact

Of researchers said that they had at some point been required by potential funders to demonstrate impact.

Who helps researchers with their tasks?
