The history of Nutrimetics

Our legend was first discovered in the Himalayas. Our founders were astounded to find that the Hunza Valley Tribespeople, who not only lived on average to the age of 130, but also looked dramatically young for their age. Their secret turned out to be a diet rich in Apricots, plus daily application of Apricot Kernel Oil. The magic of Apricot made Nutri-Rich Oil an instant beauty sensation, and so a beauty legend was born. Today, Nutrimetics has grown to become one of Australia and New Zealand's most loved natural beauty brands.

How do I apply Comfort PLUS?

- ✓ Dermatologically formulated
- ✓ Clinically trialled at UK research institute
- ✓ Vegan friendly

1
CLEANSE

Massage damp skin with Comfort PLUS Cleanser for 1-2 minutes, rinse or tissue off. This gentle wash keeps balance in your skin's pH levels.

2
TONE

With age, skin becomes less tolerant of external factors like weather. Comfort irritated skin by soaking a cotton pad, then apply all over.

3
MOISTURISE

Apply a layer of this light day crème to the face, neck and décolletage, massaging gently. The velvety light texture is extra kind with no oiliness.

4
EYES

Apply a small amount of the Botanical enriched eye crème onto your ring fingers and gently pat into the delicate eye contour area.

5
NIGHT

Before sleep, apply a layer of crème and massage gently into face and neck as the last step in your routine. It strengthens the skin's barrier.

PROFESSIONAL

Premium colour with Professional

Unique lightweight textures, modern colours and sleek custom designed packaging set our premium range apart. Professional gives you advanced formulas and up-to-the minute trendsetting shades.

Colour essential steps

Eyeshadow

1

Enhance eyes using two eyeshadow shades.

1. Sweep a neutral colour over the eyelid up to the crease.
2. Blend a darker shade into the crease and outer third of the eyelid. Blend well using your **Professional Eye Shadow & Smudge Brush**.

Eye pencil

2

Add definition and maximise shape.

1. Apply eye liner across the top lash line. Start from the outer corner of the eye, and work your way to the inner corner of the eye.
2. Softly line two-thirds of the lower lash line for more definition. Blend with your **Professional Eye Blend & Line Brush**.

Mascara

3

Long, thick lashes equal instant impact.

1. Wipe excess mascara from wand before application.
2. Coat the top of the lashes first to wipe away any fallen eyeshadow and disguise fair lashes.
3. Work the wand through the underside of your lashes in a zigzag motion to separate as you coat.

Lips

4

Complete your look with a statement, glossy lip.

1. Apply Nutrimetics lipstick of your choice using your **Professional Lip and Conceal Brush** (lip brush head) to allow colour to glide on smoothly.

2. Shine: **Lip Gloss**

You can choose to layer gloss over your lipstick or wear alone for a high shine, natural finish. Apply a full sweep of gloss to the bottom lip and press lips together. Avoid going above the lip line and blot any excess on tissue. This will give the lovely illusion of fullness.

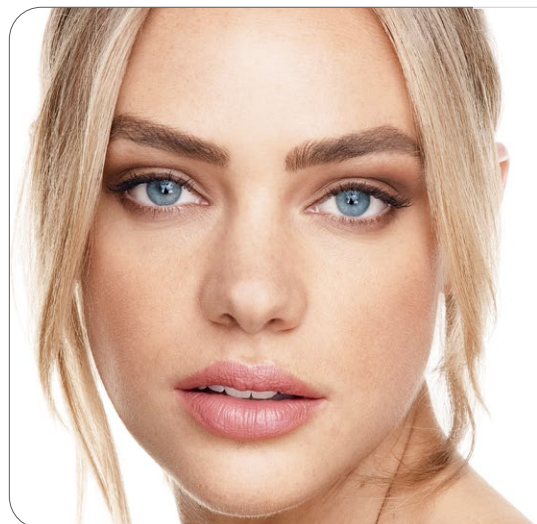

Blush

5

The quickest pick-me-up to bring your face to life.

1. Keep blush nice and high, to the apples of the cheeks, working back along the cheekbone.
2. Avoid harsh lines by applying lightly and blending well.
3. Using your **Professional Powder & Blush Brush** will ensure you can control where you are placing the product.
