PHYSICIANS REFERRAL

Assessments are administered by licensed Occupational Therapist with special training in Driver Rehabilitation. Skills are measured using evidence-based tools with additional consideration for individualized evaluation according to the client's needs. Our program complies with the Best Practice Guidelines by The Association for Driver Rehabilitation Specialists. On-Road Driving assessments will be conducted as appropriate once skills are thoroughly assessed to ensure safety.

In order to provide our best services please include the information below with this form:

- **Complete list of past medical history**
- **Medical Diagnosis supporting the assessment**
- **List of current medications**
