Manage Your Entire Off-Duty Program with RollKall

RollKall
Connecting You with Everyday Heros

Navigating all the complexities of an off-duty program can be quite demanding. Addressing client needs, communicating details with officers, and making sure your department's policies are being followed is a lot to handle. Our state-of-the-art platform makes it easy to manage your entire program.

Founded by Former Law Enforcement Executives, Commanders & Corporate Security Professionals

Policies

Add rules and regulations for your department, such as how many off-duty hours or days an officer can work per week, into your agency account so these rules can apply to your officers' jobs and schedule.

Schedule

Post jobs via our online portal and use automation tools to help push them to officers on your schedule, and set recurring jobs to save time. Your agency and officers both get visibility into scheduled jobs, so you can keep track of everything in one place.

Assigning Jobs

Our platform is flexible and enables us to fairly distribute off-duty jobs based on your agency's preferences. We can post jobs to pre-configured assignment groups so that specific groups of officers have access to apply for jobs based on your group criteria. We can also automate job assignments based on factors like hours, seniority, or groups; assign jobs evenly with a random automation; or assign jobs based on a first come, first served rule. You can customize your approach based on your agency's needs.
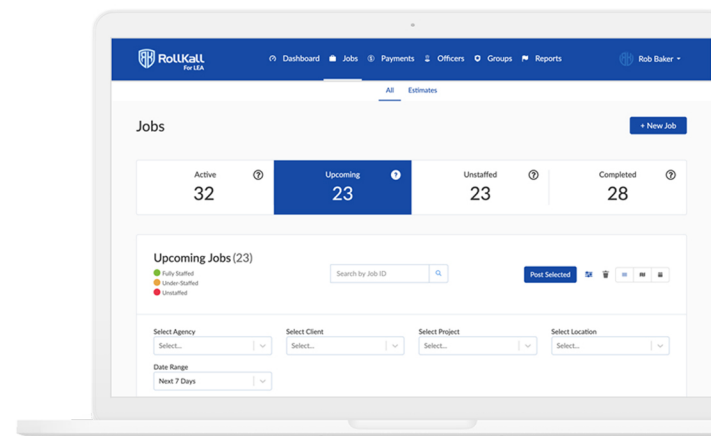

Invoicing & Payments

Invoices are sent immediately after an officer clocks out of a job. The business can pay the officer (and any agency fees) using RKPay through their portal. You'll have access to all invoices in the portal.

Simplify 1099s

Officers signed up via RollKall are categorized as 1099 contractors, so we issue a single 1099 summary directly to them for all invoices paid via our platform with RKPay.

Reporting

We offer advanced on demand reporting that covers clients, projects, officers, agency, invoicing, and more.

With RollKall, Your Law Enforcement Agency Can:

- ☑ Move from analog processes, excel sheets, and phone calls to a technology platform that handles it all in one system for all parties - your agency, your coordinators, your officers, and businesses you serve.

- ☑ Manage your entire off-duty program through a system built for you, by law enforcement experts.

- ☑ Enable officer accountability through our GPS-based mobile app clock-in and clock-out system.

- ☑ Have visibility and transparency into where your off-duty officers are.

- ☑ Keep track of applicants and update department rosters.

Your Officers Will Love RollKall, Too

RollKall

With nearly 1,000 iPhone & Android app store reviews, RollKall has a 4.7 Star Rating. Police officers download the RollKall app, set up their profile, and once their status with your agency is confirmed, can see a real-time feed of open jobs they can apply for.

Police Officer Benefits

- Get job notifications pushed directly to the app
- Receive real-time job updates
- Access schedule and invoices
- Clock in and out of jobs in the app
- Connect with other officers working the same detail

Our end-to-end solution offers RKPay, our web-based payment system handles invoicing, adds in LEA fees, and processes payments from the business. RKPay incurs a small processing fee, which is paid by the business, and using this payment platform unlocks a range of added benefits.

RKPay LEA Benefits
- ✓ Access General Liability Insurance (up to $1 million per incident, terms apply)
- ✓ Access payment and invoice reporting for your entire agency
- ✓ Occupational Accident Insurance for officers available (optional)
- ✓ Advanced On-Demand Reporting

RKPay Officer Benefits:
- ✓ Streamlined 1099 tax reporting
- ✓ Ability to have Direct Deposit
- ✓ Ability to use Instant Pay
- ✓ Access to Personal Injury Insurance (terms apply)
