## Features

Conference cam designed for huddle rooms and small conference rooms, With a 1/2.7 CMOS sensor (Sony IMX307), 2.5mm lens, 120° ultra-wide field of view, X-MEET-ONE makes everyone in the conference room clearly visible. 1080p/30FPS UHD optical lens bring extraordinary video quality to enhance face to face collaboration. Integrated audio is optimized for small spaces, and delivers an exceptional sound experience. Two Omni-directional microphones and two high fidelity speakers ensure the sound crystal clear. Compacting all in one design, USB plug and play, it simply works with any video conferencing software applications and cloud services.

**Ultra HD 1080P CMOS sensor**  
Adapts 1/2.7 CMOS sensor (Sony IMX307) to support the full HD1080P quality.

**Plug and Play USB 2.0 Connectivity**  
easily connect to PC, MAC and Chrome devices with no additional software required. Change via USB cable.

**Super-wide 120° field of view**  
Ultra Wide field of view allows everyone in the room to be seen, even those close to the camera or seated all the edges of the room.

**Compatible main streaming software**  
connect and collaborate with ease HD1080P magnetic webcam works with leading video conferencing apps including: face time, zoom, skype, gotomeeting, join me, polycom and more.

**All in one design**  
Compacting all in one form factor takes up less space and minimizes cable clutter.

**Built in 2 mics and 2 speakers**  
two omni directional microphones and two high fidelity speakers help ensure the sound crystal clear.

Download optional software to start video call

**Getting started with video calling**  
your Hybrid Room X-MEET-ONE provides full HD1080P video calling. to begin your video calling experience both you and the person you call should use a video calling application such as skype.

Except for webcam and video calling application, each conference should meet:

- A computer with speakers or headset and a microphone your X-MEET-ONE has two built in microphones.
- A broadband internet connection eg, DSL, T1 or cable

For full HD 1080p video calling please check your preferred video calling software requirements requirements may vary between applications but usually a minimum of 2 megabit upload speed is required.

1. Simply connect it to computer or your laptop through USB.
2. Choose a video conferencing software, such as Zoom or Skype for business.
3. Include everyone in the conversation and you're good to go.
