## Topic: Display Technologies and Digital Signage

**Date:** Tuesday, May 11, 2021

**Time:** 7:00 pm EDT

**Location:** Go-To-Webinar (Virtual Meeting) – Link below

**Arranged By:**  
SMPTE Toronto – Mansour Mohdavi, Andrew Thomas, Kevin Lyver

**Sponsor:** SMPTE Toronto Technical Conference - TTC 2021

The May virtual meeting will cover the latest Display Technologies and Digital Signage

### Jim Vair - President, Capital Networks

Jim will review the evolution of digital signage and the current trends for this communication medium.

### D'Arcy Pickering - VP Sales, Bannister Lake Inc.

### Danny Ljubisic - Director of Business Development & Project Management, Bannister Lake Inc.

D'Arcy and Danny will review the latest in data and Graphic Display workflows for Broadcast, Digital Signage and OTT

### Dave Muscat – Partner, 3Dot Technologies

Dave will review videowall display technology and what tech is currently available, trending, and being discontinued. He will also do a deeper dive into the various types of Indoor Narrow Pixel Pitch Direct View LED Displays, and what to look out for when choosing a DV- LED Solution.

### Allan Fernandes – Director of Product Management Cinema division, Christie Digital

**Technology Evolution of Cinema Projection.** Allan will cover the historical reliance on xenon lamp technology and the transition to solid state Laser Phosphor and pure RGB Laser illumination - highlighting the industry needs and requirements for these technology platforms. He will also touch on display technologies for cinema (i.e., LED)
