|----------------------------|--|---|---|--|
| Health Risks | None | Weak | Moderate | High |
| Description | The epidemic is completely under control. No health measures are being imposed on the population and universities. | The epidemic is not completely under control but is monitored and sporadic contaminations are detected. Public authorities recommend or require the University to implement health measures and reduce the demographic pressure on campuses and/or audiences by a certain percentage. | The epidemic is uncontrolled (continuous growth in the number of people affected). The public authorities recommend or impose more drastic restrictions on the operation of universities. | The epidemic is back on the rise again. Public authorities are demanding that education activities be provided only at a distance. |
| University Measures | All teaching activities are given without special instructions. | ULB is adapting by reducing the attendance of its basic education volume by the percentage recommended by the public authorities (reference: 2019-20 programme). Audiences are occupied to a maximum of 50%. Practical work, seminars, laboratories, project workshops and small group work are organised in a "classic" way. Study rooms and libraries are open. Internships are maintained. Hygiene measures are applied. Wearing a mask is compulsory if physical distances cannot be respected. | ULB is adapting by further restricting attendance for teaching activities following the instructions of the forthcoming plan from the public authorities. | ULB is shifting the whole teaching activity towards the distant as it was the case in Q2 2020. Training courses are suspended except those in the health fields. |

| SEE Additional Measures | Green | Yellow | Orange | Red |
|---|--|---|---|----------------------------|
| Classroom occupancy rate | Normal Capacity | Adapted but in-class | Adapted but in class | Suspended or fully online |
| Distance learning (online) | If foreseen in the curriculum | If applicable | If applicable | Suspended or fully online |
| Face-2-Face class length | 3h | 3h or less if online | 3h or less if online | Suspended |
| Teaching Formats | In-class or online as foreseen in the curriculum | In-class and/or partially or fully online | Online and/or partially or fully in-class | Online |
| Mask for Students | No | Yes | Yes | N/A |
| Mask for Faculty | No | No when social distance is enough | Yes | N/A |
| Catering | Self-service | Table-service or Meal Pack | Meal Pack | N/A |
| Possibility of Synchronous/asynchronous course recording | Yes if foreseen in the curriculum | Yes if available | Yes if available | Yes |
| Mandatory Attendance | Yes (except for medical certificates) | Yes (except for quarantine and/or medical certificates) | Yes (except for quarantine and/or medical certificates) | Yes |
| Company visits | Yes | Online or specific agreement | Online | Online |
