Title Processing after COVID

What's changed, what's the same and what the new 'normal' looks like

Now that the state is once again fully open for business, what's the plan for DMVs getting back to 'normal' after COVID?

For example, last year at this time, it took 30 days or more to process a used vehicle title. The turnaround time today is more like the normal of two years ago: three to five days.

What else has changed? What will stay the same? How do we move forward?

Live seminars this summer

Join us this summer IN PERSON at the location nearest you for the ONLY title classes offered by CADA this year!

In this highly interactive, 2.5-hour seminar, **Cindy Vierya**, owner of Cindy Titles, LLC, will cover topics that include:

- Handling out-of-state sales
- Using Car Fax to YOUR advantage
- County dealer desk changes
- State appointments for dealer titles, duplicates, registrations and record searches

She'll be joined by various county DMV title experts, so you'll know EXACTLY what each county requires when processing your titles.

These seminars fill up fast, so register today!

About our presenter

Owner of Cindy Titles, LLC, **Cindy Vierya** has provided title processing expertise and assistance to auto dealers, credit unions, lenders and individuals since 2008. She has more than 15 years' title processing experience in Colorado, including seven years at the Denver County DMV and nearly three years with a local new-car dealership.

Cindy Titles helps with all types of titling and registration. Vierya's services include training by appointment and help with problem cases, such as out-of-state title issues.

You'll learn

- Sales & use tax update – based on where your customers live
- How CarFax can become your new best friend
- County desk dealer changes
- Secrets for timely and efficient title processing today
- Handling out-of-state sales

Colorado Automobile Dealers Association
