Safe Harbor Statement

This presentation includes certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, including statements regarding management’s expectations for future financial and operational performance and operating expenditures, expected growth, and business outlook, including our long-term financial framework; our focus on profitable growth; cash flow and margin improvement expectations; the anticipated benefits of our product and feature launches and plans and timelines for developing and expanding those offerings; the anticipated benefits of our investments on our revenue growth, profitability and cash flow; our product plans, strategies, and trends; our ability to expand our ecosystem and total addressable market; our position to execute on our growth strategy and related growth drivers; our evolution to a platform model; our opportunities in international markets; and our ability to expand our leadership position and market opportunity for our inbound platform. These forward-looking statements include, but are not limited to, plans, objectives, expectations and intentions and other statements contained in this press release that are not historical facts and statements identified by words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" or words of similar meaning. These forward-looking statements reflect our current views about our plans, intentions, expectations, strategies and prospects, which are based on the information currently available to us and on assumptions we have made. Although we believe that our plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable, we can give no assurance that the plans, intentions, expectations or strategies will be attained or achieved. Furthermore, actual results may differ materially from those described in the forward-looking statements and will be affected by a variety of risks and factors that are beyond our control including, without limitation, our history of losses, our ability to retain existing customers and add new customers, the continued growth of the market for an inbound platform; our ability to differentiate our platform from competing products and technologies; our ability to manage our growth effectively to maintain our high level of service; our ability to maintain and expand relationships with our agency partners; our ability to successfully recruit and retain highly-qualified personnel; the price volatility of our common stock, and other risks set forth under the caption "Risk Factors" in our Quarterly Report on Form 10-Q filed on August 5, 2020 and our other SEC filings. We assume no obligation to update any forward-looking statements contained in this document as a result of new information, future events or otherwise.

2020 Focus
Customers
- Enabled contract flexibility for most impacted customers.
- Moved select paid features to free tier.
- Reduced cost of our Starter Growth Suite.

Solutions Partners
- Expedited Q1 commissions for all solutions partners.
- Offered commissions advance to top-tiered partners.
- Donated to World Health Organization COVID response fund in the name of partners.

Employees
- Remote was already our third largest office, so we adapted quickly.
- Added support for parents and those affected by the crisis.
- Using employee choice as first principle for return-to-work plans.
Customer Relief Requests

Definitions

**Total Customers**: We define our Total Customers at the end of a particular period as the number of business entities or individuals with one or more paid subscriptions to our Sales Hub, Marketing Hub, CMS Hub or Service Hub products, either paid directly or through a Solutions Partner. We do not include in Total Customers business entities or individuals with one or more paid subscriptions solely for our legacy Sales Hub ($10) product or any PieSync product. A single customer may have separate paid subscriptions for separate websites, sales licenses or seats, or our Sales Hub, Marketing Hub, CMS Hub or Service Hub products, but we count these as one customer if certain customer-provided information such as company name, URL, or email address indicate that these subscriptions are managed by the same business entity or individual.

**Install Base**: Refer to definition of Annual Recurring Revenue below.

**Customer Dollar Retention (CSR)**: is a measure of what percentage of our customers we retain, weighted by ARR dollars. We calculate by summing the total dollars that were canceled in a given period and divide that by the beginning of period ARR Install Base. We then express the calculated churn inversely as retention and then annualize.

- **Customer Dollar Retention Hub View**: Cancellation dollars are defined as any dollars associated with a Customer for a particular Hub where the Customer is cancelling all subscriptions associated with that Hub on all of their paid portals (whether one or more). Customer may still maintain a subscription to another Hub. Example: Customer cancels Sales Hub but remains a Marketing Customer, the dollars cancelled from the Sales Hub would count in this calculation. The denominator is all of the beginning of period ARR Install Base.

- **Customer Dollar Retention Hub View ex-Starter**: Cancellation dollars calculated the same as above, but exclude any dollars associated with Starter Editions across any Hub.

- **Customer Dollar Retention Customer View**: Cancellation dollars are defined as any dollars associated with a Customer that is cancelling all HubSpot subscriptions. A customer may pay for multiple hubs, but must cancel all hubs for those $ to count towards this definition of CSR. The denominator is all of the beginning of period ARR Install Base.

**Non-GAAP Operating Income**: We define as GAAP operating income or loss plus stock-based compensation, amortization of acquired intangible assets and acquisition related expenses.

**Free Cash Flow (FCF)**: We define as cash and cash equivalents provided by or used in operating activities less purchases of property and equipment, capitalization of software development costs, plus repayments of convertible notes attributable to debt discount.

**LTV: CAC***: LTV: Initial ARR from New Customers multiplied by the expected lifetime of our customers, while compounding expected upgrade rates over that lifetime. That “Gross LTV” is net against a margin which represents the ongoing costs of hosting, supporting, retaining and expanding our Customer revenues. All data points are in-period based on ARR Install Base changes, including Expected Lifetime (1/Churn) and Lifetime Upgrade Multiplier. CAC: Sum of our Sales, Marketing, and Service costs dedicated to acquiring New Customers divided over the number of New Customers acquired within that period.

**Install Base Average Sales Price (ASP)**: Total Install Base divided by the total number of paying customers as of the end of a given period (i.e. average ARR per customer). Install Base ASP non-Starter excludes Starter only customers.

**Annual Recurring Revenue**: We define “ARR” as the annual value of our customer subscription contracts as of the specified point in time excluding any commissions owed to our partners. For each Hub, this is the sum of customer ARR for the Starter, Basic, Professional and Enterprise subscriptions, plus applicable Contacts (Marketing Only) or Add-Ons (e.g. Reporting or Ads). For multi-product customers, their ARR would be distributed across based on the value of each SKU/Hub for which they pay. ARR can differ from Revenue due to several factors. ARR is converted into USD at fixed rates that are held consistent over time and may vary from those used for Revenue or Deferred Revenue. ARR would exclude any impact for Bad Debt and Partner Commissions (as noted above) and would also differ from Revenue due to timing of revenue recognition.

*Calculated using both internal and externally-provided data points.
