

Introducing Clientshare

Clientshare is a software tool that improves how suppliers demonstrate Service Governance to their clients.

We chose to provide Clientshare to you, to give a single source for Business Reviews, Period Reports, SES Group News, Innovation and Achievements – all consistently shared in one secure, easy to access tool. This makes us easier to work with.

We are using Clientshare to share with you to:

Manage Business Reviews

Business reviews are tracked, recorded and available to both us and our clients providing a clear record over time in one secure location

Share Management Information

Key contract information is shared to ensure we deliver on our Service Governance obligations

Build our Community

Both sides of the Stakeholder community are stored in the shared virtual community

Share Innovations and Achievements

Innovations and achievements are shared in a unique space that helps celebrate wins together

Data Visualisation Integrations

Bring live data to life to illustrate clearly how we are performing

Manage Tasks

Tasks are assigned to us, to help ensure you receive consistent updates on performance

View Files

All files that have been shared are available to search, review, and store in Clientshare

Clientshare ensures we deliver not just on our contractual commitments to you, but also helps share good news stories and achievements that demonstrate how we value our relationship
