

# Hosted VoIP Phone System

## Feature Definitions

Feature	Description	Package Availability				
		Standard	Complete	Webex Basic	Webex Standard	Webex Premium
Authentication	Authenticates upon the registration of IP phone to prevent unauthorized access to the system.	●	●	●	●	●
Call Transfer	An answered call can be transferred to a specific destination.	●	●	●	●	●
Call Hold	Allows a user to hold one call for any length of time. Flash Hold requires FAC code (*22) that is dialed after a switch hook flash.	●	●	●	●	●
Calling Name Delivery	Users are presented with the calling name of incoming calls.	●	●	●	●	●
Calling Number Delivery	Users are presented with the calling number of incoming calls.	●	●	●	●	●
External Calling Line ID Delivery	Provides Calling Line ID information of an external caller.	●	●	●	●	●
Call Trace	Allows service provider to trace a call to a user. The report generated contains calling party number, name, time and the date the call was received.	●	●	●	●	●
Music On Hold	Default music source to be played to callers that are on hold or park.	●	●	●	●	●
Three-Way Call	This service enables a user to make a three-way call with two other parties which allows all three parties to communicate with each other.	●	●	●	●	●
Outgoing Calling Plan (Call Barring)	Allows administrator to restrict the type of calls users can make.	●	●	●	●	●
Virtual On-Net Extension / Short Codes	Allows users to call certain external numbers by dialing a short code rather than the whole telephone numbers. Requires Administrator set up.	●	●	●	●	●
Inventory Report	Allows group administrator to generate a report on the resources used in the group and in each department. The resources reported include phone numbers, devices, users and departments, and services.	●	●	●	●	●
Call Logs	Access to see call information for missed, dialed, and received phone calls for individual users or the entire business group.	●	●	●	●	●
Unlimited Domestic O/B Long Distance	Allows for unlimited domestic outbound long distance.	●	●	●	●	●
Alternate Numbers / Priority Call	Authenticates upon the registration of IP phone to prevent unauthorized access to the system.	●	●	●	●	●
Call Park	Allows a user to place an active call in a "shared hold" state so it can be picked up/retrieved by another user/phone.	●	●	●	●	●
Call Pickup (Pickup Group)	Allows users to answer any ringing line within their call-pickup group. Call-pickup groups are defined by the administrator.	●	●	●	●	●
DID/DOD	Users are assigned a public phone number that can be used to place or receive calls directly by forcing access via a central number.	●	●	●	●	●
Group Paging (Multicast)	Allows users to receive and/or send group broadcasts through their desk phone.	●	●	●	●	●
Incoming Calling Plan	Allows administrator to restrict the type of calls users can receive.	●	●	●	●	●
Intercom (Push to Talk)	When a user calls another station via intercom, an available desk phone automatically answers the incoming call.	●	●	●	●	●
Account / Authorization Codes	Account Codes allow users to assign certain calls to specified accounts for tracking. Authorization Codes allows group admin to select specific users who must enter a valid authorization code when making a call to a party outside of the group.	●	●	●	●	●

Feature	Description	Package Availability				
		Standard	Complete	Webex Basic	Webex Standard	Webex Premium
Hoteling/Hot Desk	Allows users to log on and off from individual phone handsets, simply by entering their phone number and password. Standard package and above users may be a hotel <b>host</b> . To have the mobility to be a hotel <b>guest</b> , the line must be a Complete package or above. This feature is controlled by logging into the user portal or by a button on some desk phone models.	●	●	●	●	●
Anonymous Call Rejection	Enables a user to reject a call from anyone who has restricted their information from Caller ID.		●	●	●	●
Barge-in Exempt	When enabled, another user cannot barge in on their calls. When disabled, barge-in attempts are allowed.		●	●	●	●
