

UC-One
Unified Communications

Stay Connected to Anyone. Anywhere.

UC-One is a communications and collaboration Software as a Service (SaaS) application for calling, messaging, and meeting with anyone, from any device. It includes HD video, voice, messaging, screen sharing, and conferencing in a single easy-to-use cloud application. UC-One provides a seamless and consistent communications experience on a PC, tablet or smartphone - ideal for organizations of any size with geographically dispersed teams and mobile employees working at the office, at home, or on the go.

Features and Benefits of UC-One:

Calling

Enrich your relationships using high-quality HD voice and video from any device or conference room

Messaging

The best way to move business forward is to communicate quickly and concisely with 1-1 and group chat

Meeting

Improve workplace collaboration and make meetings engaging with HD video, voice, messaging and screen sharing

Screen Sharing

Share relevant content and presentations with your team for real-time access to people and information

On-the-move

Make and receive business calls from any device, activate auto-attendant or move a call in progress from your laptop to smartphone and vice versa

Any Device

Full-blown collaboration from your smartphone. UC-One works on iOS and Android tablets and smartphones so you can call, message and meet while you're on the go
