This survey has been prepared based on the responses received by Compensation Resources. Although Compensation Resources believes that the data provided by participants was reliable and representative of the practices within responding organizations, the survey results are provided for informational purpose only and without warranty of any kind. The results represented in this survey report should be considered in light of your organization’s mission, business plan, strategy, competitive position and the manner in which the information contained herein supports its direction. Compensation Resources recommends that this study be used in concert with additional sources of information in order to validate all results.

Study Background

June 11, 2020

Compensation Resources is pleased to present the results of the *2020 Salary Survey Report of College Graduates and Interns*. The purpose of this study was to obtain compensation data for new and recent college graduates and college interns. Data was collected between February and May 2020, and results were compiled from survey questions that were developed by Compensation Resources and distributed to companies in all industrial classifications. There were 87 organizations that participated in this study.

Compensation data is reported as of **January 1, 2020** in the following dimensions:

- Average
- Median
- 25th and 75th percentiles

Compensation Resources is dedicated to providing accurate results of this survey to participants; therefore, should you have any questions or need clarification regarding any aspect of the survey's results, please contact me at (201) 710-6483.

We thank you for your participation.

SAMPLE

Definitions and Reporting

Reported compensation data is as of **January 1, 2020**, unless otherwise indicated. Revenue data was reported by respondents as of the last fiscal year end date (2019).

The term "college graduate" refers in the broader context to those who were graduated with a Bachelor's or Master's degree.

Insufficient data is reported with an asterisk (*). Please note that not all industries are displayed based on the lack of a sufficient number of responses. For Master's degree positions, only the overall data is reported.

Part 1: College Graduate Compensation Reporting

Incs: The number of incumbents reported by participants for the position.

Orgs: The number of reporting organizations for the position.

Avg: The sum of all base salaries reported divided by the number of reporting organizations.

25th: The point below which 25% of the data falls.

Median: The middle number in the data array.

75th: The point below which 75% of the data falls.

Annual Bonus/Incentive Target \$: Average target annual incentive/bonus opportunity for 2019 in dollars for college graduates hired within the major indicated.

Sign-On Bonus \$: Sign-on bonus provided to newly hired college graduates in dollars.

Part 2: Key Position Compensation Reporting

Starting salaries and compensation arrangements for the specified positions. See definitions in Part 1 and job summaries below.

Part 3: Intern Compensation Reporting

Hourly compensation rates of respondents as they pertain to college interns. See definitions in Part 1.

Part 4: Compensation Practices

Information relative to the compensation practices within responding organizations.

SAMPLE

All job summaries reflect requirements of a minimum of a college degree and up to two (2) years of relevant experience.

Accountant: Assists in creating accurate and timely financial records for the organization. Examines accounting records, including financial statements and other financial reports to assess accuracy, completeness, and conformance to standards defined within the organization.

Auditor: Ensures that policies and procedures are being followed consistently throughout the organization to safeguard its assets, verify the accuracy and reliability of its accounting data, and promote adherence to the prescribed policies.

Computer Systems Analyst: Responsible for the day-to-day maintenance of the local area network hardware, and assists with implementing new technologies, upgrading systems with the latest versions of software, and rolling out new hardware and field training.

Customer Service Representative: Provides effective customer service for internal and/or external customers by using excellent, in-depth knowledge of products and programs as well as communicating effectively with team members within the customer service department.

Engineer (Level 1): Assists in design, development, implementation, and analysis of technical products and systems. Supports the preparation of plans, designs, computation methods, and reports.

Financial Analyst: Analyzes financial data by collecting, monitoring, and creating financial models for decision support. Improves financial status by analyzing results, monitoring variances, identifying trends, and recommending actions to management. Assists with annual and quarterly forecasting.

Human Resources Assistant: Assists with the administration of the day-to-day operations of human resources functions and duties. These responsibilities may apply to some/all of the following functional areas: departmental development, HRIS, employee relations, training and development, benefits, compensation, organization development, and employment.

Marketing Specialist: Responsible for designing, creating, and delivering marketing programs to support the growth and expansion of company products and services. Conveys brand messages, improves brand awareness, and provides reports based on information collected such as marketing trends, competition, new products, and pricing.

Research Analyst (Corporate): Collects and analyzes data to evaluate operations and processes and to facilitate complex decision-making. Follows established modeling and evaluation methodologies to determine the effectiveness of current activities, isolates problem areas, and develops solutions.

Software Engineer: Designs and develops software applications. Performs coding, debugging, testing, and troubleshooting throughout the application development process.
