

Pandemic restrictions have led to a **worldwide increase in online grocery shopping**¹, including consumers who have never bought groceries online before². Digital grocery buying has become so popular that it is expected to stick as a habit even post-pandemic³. As a result, even with restrictions slowly lifting around the globe, we can expect consumers who typically celebrate Easter by cooking a family meal or visiting friends and family⁴ to purchase more food and beverages and gifts online.

This Easter, **identify, reach and engage the right online consumers** by integrating audience segments into your campaigns. Speak to our audience specialists today at datadesk@eyeota.com to find out more.
