Did you know? In Q4 2020, viewers watched over 8 billion hours of livestream video game content, compared to 4 billion hours in Q4 2019. APAC countries such as India (5.3 hours), South Korea (3.4 hours) and Indonesia (3 hours) are among the countries with the highest average weekly time spent watching others play video games digitally, compared to the worldwide average of 2.8 hours. With gaming emerging as the next dominant tech platform, it is more important than ever for brands to understand gaming audiences and engage them through the right channels, at the right time.

Brands targeting APAC gaming audiences can identify, reach and engage the right online consumers by integrating audience segments into their cross-device campaigns. Speak to our audience specialists today at datadesk@eyeota.com to find out more.

Download our Gaming audience playbook for a complete list of attitudes, personas, and profiles to reach your best future customers.
