

Eyeota Mobile Switcher & Subscriber Audiences

Built with powerful service performance metrics, transactional behaviors and brand loyalty indicators, **Eyeota's Mobile Switcher & Subscriber** audiences allow cellular, telecommunication and network providers to:

- Influence consumers in-market to switch provider
- Reclaim customers likely to convert to a competitor
- Capture dissatisfied audiences searching for improved cellular service

The benefits of activating Eyeota Mobile Switcher and Subscriber Audiences

1. Drive upper-funnel awareness by identifying audiences in the interest and consideration phase

2. Deliver lower-funnel performance by engaging in-market audiences at the point of switching

3. Optimize brand loyalty and market-share by pinpointing audiences interacting with competitive brands

A guide to Eyeota Mobile Switcher and Subscriber Audience Segments

Audience segments are sourced from qualified data sources that include modeled transactional spend on brand-specific purchases, customer lifetime value metrics, brand loyalty indicators, switcher and retention signals, and user-submitted tests of WIFI upload and download speeds.
