

MACRA Data Export Specification

Version: 2021.001

© Graphium Health. All Rights Reserved.

The information contained in this document is PROPRIETARY and CONFIDENTIAL.

Conventions

- All fields and records are variable length.
- Not all fields are expected to have values.
- Field names will be used for the column header in the first row of the file
- File format is comma-delimited ASCII text
- Default file naming convention: {orgAbbreviation}_{facilityAbbreviation}_macra_{startDate}_{endDate}_{currentTimestamp}.csv, where all dates are in the format YYYYMMDD, and all timestamps are in the format YYYYMMDDHHMISS.
NOTE: {facilityAbbreviation} may be substituted with an organization's Tax Identification Number (TIN) in some cases.
- Each file will include all admissible MACRA cases for the specified facility and timeframe

File Delimiters

Primary Field Delimiter: , (COMMA, ASCII 44)

Record Delimiter: \n (LF, ASCII 10)

Version History

2021.001 (Jun 2021) • Initial DRAFT

Field #	Field Name	Field Type	Format	Sample Value(s)	Comments
1	Organization Name	String			Graphium Organization Name
2	Organization Code	String			Graphium Organization Abbreviation
3	Facility Name	String			Graphium Facility Name
4	Facility Abbreviation	String			Graphium Facility Abbreviation
5	Unique Case ID	String	{GraphiumOrganizationCode};{GraphiumFacilityId};{GraphiumFormID}	demo1000:1:19999	
6	Date of Service	String	YYYY-MM-DD	2021-01-01	
7	Anesthesia Start Time	String	HH24:MI	09:30, 14:45	00:00 if unavailable
8	Anesthesia End Time	String	HH24:MI	09:30, 14:45	00:00 if unavailable
9	Patient Age Years	Number		0, 14, 55	
10	Patient Gender	String		M, F, U	U if unavailable
11	ASA PS Code	String		1, 1E, 2, 2E, 3, 3E, 4, 4E, 5, 5E, 6, 6E	
12	Primary Anesthetic Type	String		GENERAL, MAC, REGIONAL, SPINAL, LABOR_EPIDURAL, EPIDURAL, LOCAL, TOPICAL, UNKNOWN	UNKNOWN if unavailable
13	Surgeon NPI	String	9999999999		
14	Anesthesiologist NPIs	String	9999999999		Can contain multiple values, comma separated
15	CRNA NPIs	String	9999999999		Can contain multiple values, comma separated
16	CPT Codes	String		00100, 27486, 64624, 95991	All surgical and ASA CPT codes on record for the case; Can contain multiple values, comma separated
17	Measure Data Codes	String		53B, 54A, 1019, 1074, 1082, 1083, 10A12, 10A69, 11A28, G9643, 4255F, etc	All relevant quality data and measure response codes for the case, for all supported MIPS/QID, AQI, ABG, Mednax (and other supported QCDR) measures; Can contain multiple values, comma separated
