

 SPARKPOWER™ bullfrogpower®

# Saving energy pays off

Implement efficiency opportunities with short payback periods and tangible environmental benefits

## Reduce your organization's energy costs

Spark Power and our sustainability division, Bullfrog Power, offer energy efficiency services to save you time and money by identifying and implementing efficiency opportunities.

We'll assess opportunities in your facility and create a custom energy efficiency action plan that includes high-impact recommendations—most of which will pay for themselves in two years or less—and a fixed, no-obligation quote for Spark Power to perform the upgrades. If you decide to move forward, we'll make things easy for you with incentive application support, quick implementation, and end-to-end service.

## About us

Spark Power has over 50 years of experience providing low voltage electrical contracting. We have operations across North America and are a Trusted Partner in Power to over 5,500 customers. We provide end-to-end support for our customers, from assessments, surveys, and finding the right solution for their needs, through to implementation, testing, and commissioning.

For over 15 years, Bullfrog Power has offered high-quality, high-impact sustainability solutions to power the future of your business. We have a decade of experience working in energy efficiency and conservation programs.
