

PowerPoint templates

Professionally designed PowerPoint templates, 30% off *

Save time, money and your brand's reputation with a custom PowerPoint template that gets your team on the same page.

Let us create your very own bespoke presentation template; providing a professional look across all your presentation communications. Whether it be a company presentation, or a branded PowerPoint, ensure consistency and impact with our slide designs.

Concept slides

Our Senior Designers craft a custom concept for your PowerPoint template that aligns perfectly with your brand guidelines. This gives us the opportunity to distil your company's visual identity using your brand colours, fonts and graphic elements.

The concept comprises of a three-slide example pack including; a title slide, divider slide and one content slide (unless otherwise requested) and is sent to you as a PDF for review.

Once you've given us a visual signoff, we can continue to create the remaining slide layouts of your template.

Template design and build

Once the concept is approved, our presentation designers get to work, building an additional 10 slide layouts in the concept style. One round of minor amends is included.

Additional slide layouts, icons and imagery can be designed at request (charged at \$150ph).

Our PowerPoints are more than just a pretty face! Our experts also ensure that everything behind the scenes is in order.

Slide master layouts are tried and tested with the user in mind to ensure a perfectly functional template. A user guide is included so that everyone can use your template with ease.

If your template is going to be rolled out across an entire organisation, we can arrange for certain files to be set up and sent for use by your IT team (template .POTX and theme .THMX files can be included).

Project management

Seamlessly navigating the process through each stage, our Project Managers ensure a successful delivery and launch of your new, bespoke PowerPoint template.

Training *(costs apply)*

In this two-hour session our presentation experts walk key stakeholders through your custom template to show them how to maximise its use. Training is limited to a total of five team members to ensure a high level of interactivity and value for everyone.

Want to get the whole team involved?

Chat to us about team workshops for PowerPoint training.

*PowerPoint templates are built from established brand guidelines. 30% discount is valid until September 30th. All prices in AUD. Discount excludes any costs associated with the training option.
