### Legacy Building Solutions Top 600 Contractor for Third Consecutive Year

South Haven, Minn. – [Legacy Building Solutions](http://www.LegacyBuildingSolutions.com), a nationwide and international manufacturer of custom tension fabric structures on a rigid steel frame, has recently been ranked on the *Engineering News-Record* Top 600 Specialty Contractors list for the third year in a row. Legacy's 2016 ranking is 540, an increase from each of the previous two years.

The ENR article accompanying the Top 600 list highlights two growth trends that have helped fuel Legacy's growth: expansion of services and design-build and design-assist technology.

"Our ability to partner on design-assist and [design-build projects](#) has definitely driven our growth," said Ben Fox, president and CEO of Legacy Building Solutions. "Our custom buildings have been using the design-build method since day one. Our ability to engineer, manufacture and install using highly skilled and quality driven in-house crews sets us apart from our competitors in the industry."

While Legacy has always offered engineering, fabric manufacturing and installation services, a 2016 addition allowed the company to fabricate steel beams at their South Haven, Minn., office. In addition to the Top 600 Specialty Contractors designation, Legacy was named to the Inc. 5000 list this year, another sign of consistent growth.

#### About ENR

*Engineering News-Record* is a weekly publication for the construction industry. The specialty contractor rankings are determined by market revenue data provided by participating firms. More information about ENR and the listings can be found at [www.ENR.com](http://www.ENR.com).

#### About Legacy Building Solutions

Legacy Building Solutions designs, manufactures, engineers, and installs large-scale custom fabric structures for a wide range of industries, including the aviation, recreational, military and agricultural sectors. The company was founded in 2010 after creating a now-patented fabric attachment system. Headquartered in South Haven, Minnesota, Legacy Building Solutions provides services worldwide. Committed to sustainability and best management practices, the firm has achieved ISO 9001:2008 and CSA A660-10 certifications. Learn more at <http://www.legacybuildingsolutions.com/>.
