EvokeTechnologies

APPLICATION TRANSFORMATION USING
ASP.NET & AZURE

Client Overview

With more than a century of innovation in paint making, our client is a global coatings provider developing and manufacturing liquid and powder coatings for customers across industries.

Business Requirement

- Transform the applications running on their production floors to drive innovation.

- Improve process efficiencies and productivity by adopting leading-edge Microsoft technologies.

Business Solution

▶ Having a thorough understanding of their business processes, Evoke helped the client build multiple applications and reporting dashboards in no time.

▶ Developed applications with functionalities to edit color formulations and quality control tools to formulate and validate specifications for packaging.

▶ Created warehouse management dashboards for their transportation and logistics departments.

Business Benefit

- Improved operational efficiencies and reduced operating costs by 60%.

- Dashboards helped client to optimize fleet performance resulting in 64% less downtime.

- Improved quality control processes by creating tools to monitor color formulations.

- On-time availability of data for the workforce improved productivity by 40%.

Technology Stack

- Azure
- Microsoft ASP.Net (C#, MVC)
- Office 365
- HTML5-CSS, Bootstrap, AngularJS
- WCF
- SQL Server, MSBI, SSIS, SSRS
- Tableau Reporting
