

GO SOLAR WITH **NO** PANELS

GO GREEN SAVE GREEN

Community Solar allows you to get all the environmental benefits of going solar while reducing your utility expenses! All without the cost or hassle of installing solar panels!

WHY GO SOLAR WITH NO PANELS?

Community Solar allows people the opportunity to go solar even if they cannot or prefer not to install solar panels on their property, making it an attractive option for renters or those who live in shared buildings.

- ✓ No costs to participate!
- ✓ No panels required!
- ✓ No cancellation fees!
- ✓ No switching energy suppliers!
- ✓ Guaranteed Savings of 10% every month for 20 years!

HOW IT WORKS

10% SAVINGS Guaranteed!

Participants receive 10% savings on their electricity cost, right on their utility bill, every month for 20 years- guaranteed!

ABOUT PROJECT PITTMAN

The Pittman Solar Farm is located in Washinton County, Maryland.

The solar farm will be about 2.8 MW in size, generating 4.1 million kWh per year and preventing 1.6 million lbs of CO2 per year!

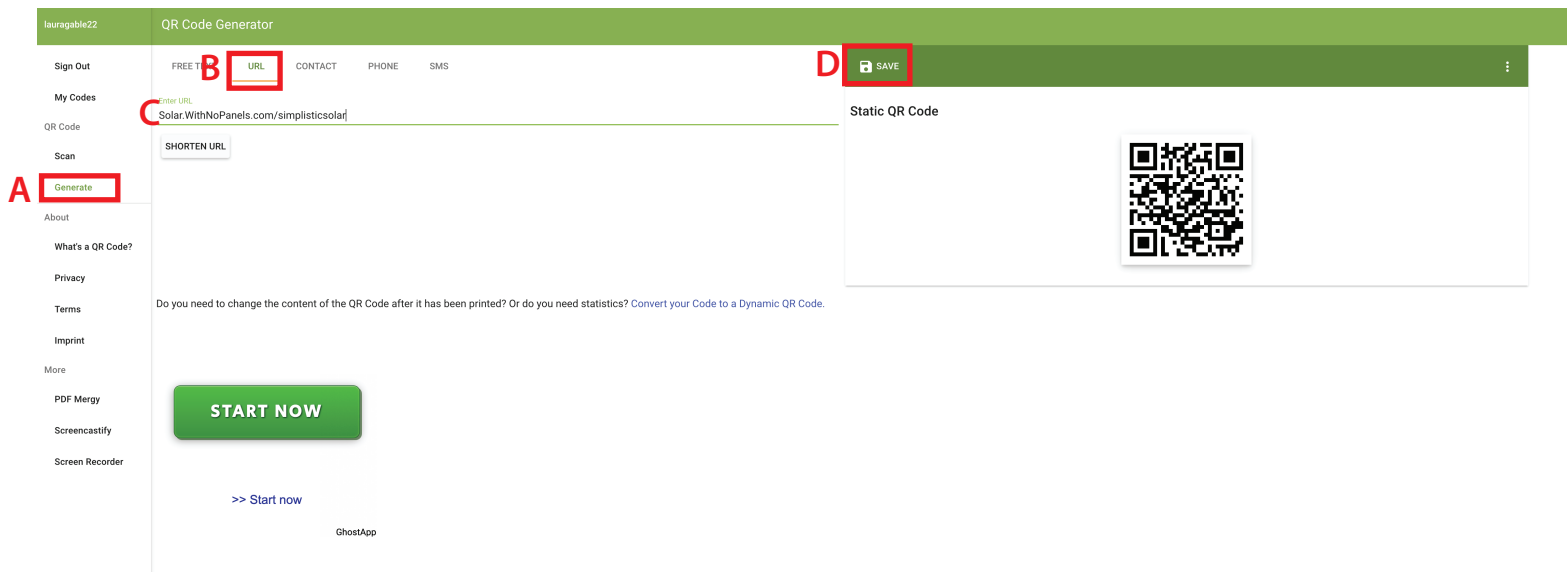

The Pittman Solar farm will be providing clean, local solar energy to over 470 residential homes and small businesses in the Potomac Edison utility territory.
