

SOCIAL-EMOTIONAL LEARNING

BEST PRACTICES

Personalized learning is a meaningful part of implementing Social & Emotional Learning (SEL) practices. FEV Tutor's live 1:1 approach to instruction promotes a positive learning experience by supporting the academic growth of the learner on their educational level and pace.

INDIVIDUALIZED INSTRUCTION

Positive learning experience & custom learning plans designed to meet each student's unique academic needs and build small victories and student confidence on the path to mastery.

CONSISTENT TUTOR MATCHING

FEV Tutor purposefully matches students with the same instructor from lesson to lesson, establishing a positive relationship.

PARTNER COLLABORATION

FEV's Academic Success Team makes sure that lessons sync back to existing school/ district PBIS and SEL frameworks.

STUDENT ENGAGEMENT STRATEGIES

Tutors award students points in four gamification categories -- Participate, Drive, Achieve, and Collaborate -- and incentivize them to Level Up!

ONGOING TRAINING

Our instructors are trained on the most up-to-date SEL practices using the RULER framework.

DIGITAL CITIZENSHIP

Learning and engaging online is a subset of SEL during formative years & technology is another venue for learners to acquire empathy and relationship skills.

By following these best practices, FEV Tutor creates a safe, constructive learning environment for students to develop self-awareness, relationship skills, responsible decision-making skills, and more.
