

# Profiles

**A system that integrates a range of modules to provide a comprehensive overview of student data.**

Access to the right information at the right time significantly improves efficiency throughout the school day. Sentral Profiles provides teachers and administrators with a centralised system that offers broad and detailed student information at a glance.

Sentral Profiles integrates data from other modules within Sentral to create a comprehensive picture of a student's school life. Incorporating data from modules such as Attendance, Wellbeing and Academic Reports, Sentral Profiles assists teachers with current and detailed information.

Analysis tools can be used to identify trends in student academic performance, behaviour and wellbeing. This enables teachers to take action based on relevant information.

Significant time is saved when seeking insight about a student through the consolidation of data into the one simple user interface.

## Key Benefits

Comprehensive student data

Information at a glance

Analysis tools

Integrated data

Powerful search tools

### Comprehensive summary

Sentral Profiles is built upon a series of powerful search tools that enable users to quickly specify criteria to find the information they need. Searches can be performed by category such as school year, class, house or gender to reveal a group or cohort. Searches for individual students can also be performed. In each case, a comprehensive summary delivers information at a glance.

### Integrated data

A student's life at school is a complex web of academic and social interactions. Sentral Profiles enables teachers to view information from a variety of sources to gain a clearer picture of the activities and events that take place for each student.

### Fast access to historical information

Historical information is often a key part of diagnosing problems or creating plans for student development. Sentral Profiles uses a simple menu interface that guides teachers and administrators to past records concerning academic reports, student records and wellbeing documentation.

### Analysis tools

Obtain an overview of student growth and performance with integrated analysis tools. Sentral Profiles captures student assessment data and graphically presents trends across semesters and years. Multiple subjects can be overlaid to highlight strengths and opportunities for improvement. View information as subjects and grades, continuums, or standardised tests such as NAPLAN.

### Student documentation

Sentral Profiles can store information about a range of relevant documentation. Access levels can also be configured that allow appropriate access to confidential information where required.

**Gain a complete picture of student information, academic achievement and wellbeing with Sentral Profiles.**
