

Wellbeing

A holistic system to manage student interactions, achievements, struggles and successes.

Student wellbeing is a major contributor to a child's capacity to learn, achieve and develop holistically as a person. Sentral Wellbeing is highly configurable to your school's needs. It provides both broad overview and in-depth detail of student life, enabling schools to provide quality learning environments and communities.

With modules designed around the actual experiences that students are likely to encounter, Sentral enables the complementary human connection in managing student wellbeing. Teachers can easily record information into a system that truly reflects your school's culture and values.

Sentral Wellbeing can be configured to reflect the collaborative input of all staff, creating an environment that respects the historical traditions of your school. At the same time, it provides scope to adapt and change.

Key Benefits

Highly configurable

Incident reporting

Student plans

Awards

House points

Configurable

Sentral Wellbeing is highly configurable to the way your school currently operates. With the ability to develop user generated categories, incidents and events, Sentral Wellbeing enables schools to accurately record information that reflects school life. In addition, Sentral Wellbeing adapts easily, enabling schools to modify their approach to managing wellbeing when needed.

Incident Reporting

Incidents are easily defined within categories, enabling information to be recorded that is relevant and meaningful. Sentral Wellbeing provides a detailed register of events giving easy oversight across the whole school.

Plans

Design and create individual learning plans to address specific needs and achieve outcomes-based learning goals. Utilise the comprehensive built-in plans, and develop further plans to suit specific needs.

Awards

Configure awards systems that reflect how your school operates. Sentral Wellbeing also provides the opportunity to create tiered based awards systems that automatically tally achievements and generate higher level awards.

House Points

Integrate house points into award systems to reflect student involvement and contributions. House points can be automatically tallied for overall house scores.
