We help Government schools work smart.

Discover the possibilities.

SENTRAL

We help teachers, students & schools work smart.

Sentral is a proven web-based school management system trusted by over 3000 schools across Australia.

Our mission is to help teachers achieve the best learning outcomes for every child in their care.

Designed by teachers, for teachers, we understand the daily demands of school life. That's why Sentral is designed to take the hassle and administrative burden out of your day.

Sentral started from humble beginnings and built the platform into what it is today to ensure that public education is supported with the best tools available.

In line with emerging government policy on cloud computing, we encourage all schools to consider using our Microsoft cloud-based, 'Software as a Service' offering. That means less infrastructure management for schools, and more time spent on teaching and learning.

Together with our online portal and mobile app, you can stay more easily connected with your school community.

Sentral's modular approach means you can start small and turn on more modules when you need them. It's highly configurable, making it work just the way you expect it to.

Need help? Our online ticketing system prioritises support requests so that the most critical issues get solved first.

We also have an energetic training team to get you up and running quickly and easily. Plus, if you prefer a self-help option, Sentral is backed up by comprehensive online/print guides and video tutorials.

We know schools. Let Sentral help your teachers work smart today.

School Management made easy

Sentral offers an intuitive web-based interface for school management in any school.

Unrivalled integration

Seamlessly integrates with curricula, preferred timetabling, authentication or other existing systems.

Designed by educators

Sentral has been designed by teachers, principals and other school professionals so it works the way you expect it to.

Support when you need it

Through the integrated self-help centre as well as our prioritised system of lodging cases which is 100% locally based in Australia.

Choose what you need

With Sentral's modular design, you can activate the applications that suit your school right now and turn others on later.

Your data stored where you want it

Sentral offers flexible deployment models in the cloud for a single school or enterprise group.

Solutions
– A Modular approach

We've developed Sentral to enable different roles within your school to effectively meet organisational objectives.

Modules are categorised and grouped with appropriate levels of access to allow staff to meet their immediate responsibilities. Where necessary, information can be shared in accordance with need, fostering collaborative work methods.

Scalable and highly configurable, Sentral modules can be activated as your organisational needs grow and evolve. It's part of our commitment to being future focused.

Sentral Modules

Administration

Assessment & Reporting

Attendance

Wellbeing

Parent Portal & Mobile App

Administration

Keep the office running smoothly with intuitive tools for daily office operation.

Enrolments
Manage your enrolments efficiently by integrating with state-based student data systems.

Student Profiles
Centralised access to student profiles providing fast access to detailed student data.

Health
Create detailed records of student health requirements, medication management, and individual health care plans. Efficient management of sick bay / health centre records.

Variations
All classes, activities and events covered when staff are absent, or conditions change. A more efficient method for allocating casual staff and maintaining supervision compliance requirements.

Asset manager
Create asset registers for more efficient oversight of resources and equipment.

Activities
Plan, approve and manage all aspects of school excursions and co-curricular events. Work collaboratively with departments within the school to ensure that activities run smoothly with your school's overall schedule of events.

Timetables
Timetable viewer linked to external third-party timetable creation software. Leave reasons and even daily sign in/out.

Calendars
Complete internal and external calendar functionality, including automatic calendar events that flow through from other modules and Office 365 integration.

Assessment & Reporting

Easily complete academic reports, and fully comply with state-based reporting standards.

Academic Reports
Integrated reporting system that communicates directly with other data within Sentral, including academic results, participation records, attendance and more.

Markbook
Record assessment data that feeds directly to academic reports. Create markbooks by class or faculty.

Continuum
Track student and cohort progress in accordance with state-based learning progressions.

Continuous Assessment
Provide regular progress and achievement feedback to students and parents.

Curriculum integration
Built in state and national curriculum outcomes for streamlined mapping against assessment and learning tasks.

Attendance

Manage student attendance and onsite visitors efficiently.

School attendance
Manage all aspects of school-based attendance.

Visitors
Track all school visitors electronically.

Lesson Attendance (HS)
Track student period by period attendance.

Kiosk
Monitor student absences via automated student absence system.

Timetables (HS)
Timetable viewer linked to external software.

Messaging
Single to batch communications via SMS and email.

Wellbeing

Record student interactions and achievements to improve management of their wellbeing.

Wellbeing
Track and manage student behaviour.

Student Activities
Create and manage all aspects associated with school excursions and extra-curricular events.

Plans
Design and create individual student-based plans.

House Points
Automatically or manually populate with links to Activities and Awards.

Parent Portal & Mobile App

Engage with your school community and allow parents to connect and keep track of their child's progress.

Push notifications
Send instant push notifications to parents. No need for notices, signatures, confirmations.

Payment gateway
Receive payments and record them. Cash, cheque and other payment methods which are difficult to track won't be needed anymore.

Security and Privacy
All the data on the above stored and readily available for any meetings, issues or tracking.

Streamlined & targeted communication
Communicate easily and monitor your staff's communication with parents via our instant messaging feature.

Support

Prioritised support provided by an energetic team to keep you running smoothly.

- Critical Issues – online system for lodging cases prioritises support to ensure that the most critical issues are handled first.
- Training – highly experienced and dedicated training staff provide engaging and effective onsite and remote training solutions.
- Self-help Resources – comprehensive online / print guides and video tutorials.
