Class Builder

Create more balanced classes and save hours, days . . . even weeks!

Teacher Surveys
Collect consistent student data with online teacher surveys.

Teacher Logic Algorithm
Create classes that are well-balanced by automatically considering: gender, class size, behaviour, academics, special education, ESL and social dynamics.

Composite Classes
Easily configure a balanced composite class, using information from teacher surveys.

Class Creator Transition
Streamline the transition process for students transitioning from primary to secondary school.

Placement Alerts
Mistakes are a thing of the past, with our alerts and real-time feedback.

Drag & Drop Editor
Drag and drop students to tweak class cohorts easily.

The Benefits

Capture years of insights on each student
· Make placement decisions based on student placement history data, not memory
· Use data from various classes and years to ensure you understand the full picture of a student's abilities and demeanour

Cover all bases
· Our automated student placement software considers behaviour, academics, special needs, separations and friendships when placing a student into a class

Save time with automated cohort building
· No more mistakes. Class Builder ensures students are placed with the right peers and teachers
· Staff can spend more time on providing useful student insights once lengthy, manual processes are eliminated

Real-time alerts and easy editing
· Drag and drop editing, real-time alerts and a demographic overview means you can edit the classes to make them just right, without the worry of making mistakes.
