

Whistic Vendor Risk Management

Vendor Security Assessments—Automated

Update and Automate Your Vendor Security Practice

Managing vendor risk assessments with spreadsheets and email seemed like a good idea in the beginning, but now that you're assessing hundreds of vendors each year you need a more mature process.

Whistic Vendor Risk Management allows you to ditch the spreadsheets and replace them with an automated, completely customizable system.

Key Benefits of Using Whistic Vendor Risk Management

Automate vendor assessments. Initiate vendor risk assessments, assign inherent risk to vendors, and notify your team when new vendors are brought on board—automatically.

Customize your experience. Whether you want to use pre-built industry standards, a customized questionnaire, or a mix of both, Whistic will simplify your approach to vendor risk management.

Be proactive. Conduct zero-touch assessments of vendors to see if they meet your security requirements before you even engage with them using the Whistic Trust Catalog.

Accelerate time to value. Speeding up the vendor assessment process ensures your employees have access to all the tools they need to grow your business sooner.

Increase understanding. Gain key insights into which assessments are completed and which ones need follow up while having a better understanding of vendor risk—all from a centralized dashboard.
