Chancellor's Adopted Budget Address

August 16, 2021

The Peralta Community College District (PCCD) Adopted Budget for fiscal year 2021/22 presented to the Board of Trustees reflects our efforts to serve our students and improve our community while maintaining fiscal stability in accordance with established accounting principles and practices. Our dedication to provide high quality educational programs and services to our students continues to be our top commitment.

The PCCD Fiscal Year (FY) Adopted Budget is presented in accordance with Board Policy and Administrative Procedure 6250 - Budget Management. The foundation for the adopted budget is based on the Governor's Enacted Budget proposal and other fiscal resource allocations to the colleges and district.

GOVERNOR'S ENACTED BUDGET

On June 28, 2021, California Governor Gavin Newsom signed the 2021 Budget Bill Act and various pieces of related legislation that were passed by the Legislature to implement the budget for the 2021-22 fiscal year. Additionally, the Governor signed several educational trailer bills as part of the budget package for 2021-22.

The Governor's Budget for FY 2021/22 spends \$262.5 billion in total state funds, consisting of approximately \$196.4 billion from the General Fund, \$61.2 billion from special funds, and \$4.9 billion from bond funds. The \$196.4 billion in General Fund includes \$47.1 billion for higher education entities which includes the University of California and California State University Systems, as well as, the California Community Colleges' Board of Governors.

The enacted budget relied on the Department of Finance (DOF) revenue estimates, which were somewhat lower than estimates made by the Legislative Analyst's Office (LAO). If revenues continue to outperform expectations, Proposition 98 funding requirements for 2021-22 could increase, and would be reflected in later budget measures.

However, even with the lower estimates, California Community Colleges continue to fare well as the Budget Act increased overall funding for community colleges by more than \$3.5 billion over 2020-21 levels through a combination of ongoing and one-time funds, and makes a number of investments, including in deferred maintenance, student basic needs, and support for faculty.

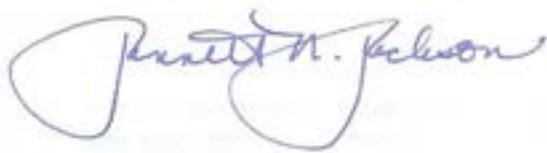

Some of the highlights of the budget include:

- fully paying off the deferral from 2020-21 (to be paid July and August 2021);
- a 5.07% cost-of-living-adjustment (COLA);
- an extension of the Hold Harmless provision for an additional year;
- support for both part time and full time faculty;
- increased funding for Guided Pathways;
- funding to reduce the cost of textbooks for students;
- allocations to boost student recruitment and retention efforts;
- support for expanding the dual-enrollment program between community colleges and high schools;
- ESL and vocational training funding; and
- funding to offset student food and housing insecurity.

It should also be noted, that although Peralta will see an increase in revenue, some of these funds are one-time in nature, and are focused on needs revealed or exacerbated by the pandemic, and will sunset at a future date; therefore, we must act responsibly in our efforts to utilize this temporary influx of funding. We remain mindful that our Hold Harmless and Stability Protection Funding as it relates to the Student Centered Funding Formula (SCFF) has only been extended for one year, and will end in 2024-25. The Peralta district will continue to focus on strategic assessments of the fiscal health of the district so that we are collectively prepared to handle ongoing operational expenditures beyond the loss of funding protections.

This adopted budget reflects that the district, as well as the state, are on the road to recovery. The Board of Trustees, the faculty, the administrators, the classified professionals, the student leaders, our bargaining unions, and our community partners have all worked together and supported our District's efforts to stay solvent and to position us for the future, so that we can continue to provide high-quality instructional programs and services that serve our community and our students.

Thank you for your continued support,

Jannett N. Jackson, PhD

Interim Chancellor

Assessed Value of the District

Property Taxation System

Property tax revenues result from the application of the appropriate tax rate to the total assessed value of taxable property in the District. Community college districts levy property taxes for payment of voter-approved bonds and receive property taxes for general operating purposes as well.

Local property taxation is the responsibility of various county officers. For each taxing jurisdiction located in a county, the county assessor computes the value of locally assessed taxable property. Based on the assessed value of property and the scheduled debt service on outstanding bonds in each year, the county auditor-controller computes the rate of tax necessary to pay such debt service, and presents the tax rolls (including rates of tax for all taxing jurisdictions in the county) to the county board of supervisors for approval. The County Treasurer prepares and mails tax bills to taxpayers and collects the taxes. In addition, the treasurer-tax collector, as ex officio treasurer of each school and community college district located in the County, holds and invests community college district funds, including taxes collected for payment of community college district bonds, and is charged with payment of principal and interest on such bonds when due. Taxes on property in a community college district whose boundaries extend into more than one county are administered separately by each county in which the property is located. The State Board of Equalization also assesses certain special classes of property, as described later in this section.

Assessed Valuation of Property Within the District

All property (real, personal and intangible) is taxable unless an exemption is granted by the California Constitution or United States law. Under the State Constitution, exempt classes of property include household and personal effects, intangible personal property (such as bank accounts, stocks and bonds), business inventories, and property used for religious, hospital, scientific and charitable purposes. The State Legislature may create additional exemptions for personal property, but not for real property. Most taxable property is assessed by the assessor of the county in which the property is located. Some special classes of property are assessed by the State Board of Equalization, as described below.

Taxes are levied for each fiscal year on taxable real and personal property assessed as of the preceding January 1, at which time the lien attaches. The assessed value is required to be adjusted during the course of the year when property changes ownership or new construction is completed. State law also affords an appeal procedure to taxpayers who disagree with the assessed value of any property. When necessitated by changes in assessed value during the course of a year, a supplemental assessment is prepared so that taxes can be levied on the new assessed value before the next regular assessment roll is completed. See "Appeals of Assessed Valuation; Blanket Reductions of Assessed Values" below.

State-Assessed Property. Under the State Constitution, the State Board of Equalization assesses property of State-regulated transportation and communications utilities, including railways, telephone and telegraph companies, and companies transmitting or selling gas or electricity. The Board of Equalization also is required to assess pipelines, flumes, canals and aqueducts lying within two or more counties. The value of property assessed by the Board of Equalization is allocated by a formula to local jurisdictions in the county, including school districts, and taxed by the local county tax officials in the same manner as for locally assessed property. Taxes on privately owned railway cars, however, are levied and collected directly by the Board of Equalization. Property used in the generation of electricity by a company that does not also transmit or sell that electricity is taxed locally instead of by the Board of Equalization. Thus, the reorganization of regulated utilities and the transfer of electricity-generating property to non-utility companies, as often occurred under electric power deregulation in California, affects how those assets are assessed, and which local agencies benefit from the property taxes derived. In general, the transfer of State-assessed property located in the District to non-utility companies will increase the assessed value of property in the District, since the property's value will no longer be divided among all taxing jurisdictions in the County. The transfer of property located and taxed in the District

to a State-assessed utility will have the opposite effect: generally reducing the assessed value in the District, as the value is shared among the other jurisdictions in the County. The District is unable to predict future transfers of State-assessed property in the District and the County, the impact of such transfers on its utility property tax revenues, or whether future legislation or litigation may affect ownership of utility assets, the State's methods of assessing utility property, or the method by which tax revenues of utility property is allocated to local taxing agencies, including the District.

Classification of Locally Taxed Property. Locally taxed property is classified either as "secured" or "unsecured," and is listed accordingly on separate parts of the assessment roll. The "secured roll" is that part of the assessment roll containing State-assessed property and property (real or personal) for which there is a lien on real property sufficient, in the opinion of the county assessor, to secure payment of the taxes. All other property is "unsecured," and is assessed on the "unsecured roll." Secured property assessed by the State Board of Equalization is commonly identified for taxation purposes as "utility" property.

The greater the assessed value of taxable property in the District, the lower the tax rate necessary to generate taxes sufficient to pay scheduled debt service on the Bonds. The following table shows a recent history of taxable property assessed valuation in the District.

Appeals of Assessed Valuation; Blanket Reductions of Assessed Values.

There are two basic types of property tax assessment appeals provided for under State law. The first type of appeal, commonly referred to as a base year assessment appeal, involves a dispute on the valuation assigned by the assessor immediately subsequent to an instance of a change in ownership or completion of new construction. If the base year value assigned by the assessor is reduced, the valuation of the property cannot increase in subsequent years more than 2% annually unless and until another change in ownership and/or additional new construction activity occurs.

Office of Finance and Administration Executive Message

August 16, 2021

This presentation of the 2021/22 Adopted Budget is a balanced budget with a surplus of \$227,000. On June 28, 2021, Governor Newsom signed the 2021 Budget Bill Act. In total, the 2021/22 state budget reflects expenditures of \$262.5 billion, including \$196.4 billion in General Fund expenditures. The Budget Act includes components of the Governor's May Revision and additions or modifications adopted by the Legislature on June 14, 2021. This is along with other agreed upon changes between the Legislature and Governor.

The Enacted 2021/22 Budget provides total additional resources of \$3.5 billion to California Community Colleges apportionments and categorical programs. This is including full repayment of the \$1.5 billion in deferrals of system funding in 2020/21. The Enacted 2021/22 Budget continues the state's focus on maintaining reserves as protection against the next economic downturn. In terms of spending priorities, the budget focuses on assisting the state recover from the COVID-19 pandemic.

Senate Bill 85, passed in February 2021, amended the Budget Act of 2020. It did so by adding \$121.1 million in as a one-time local fund to provide assistance for immediate COVID-19 response and relief efforts. This also makes for investments in an equitable, inclusive and broad-based economic recovery.

The Enacted 2021/22 Budget is based on the Department of Finance revenue estimates. These estimates were less than expected by the Legislative Analyst's Office. If revenues continue to outperform what is now expected, then Proposition 98 funding requirements for 2021/22 could also increase. This would be reflected in later budget measures.

The state budget pursues implementation of the Student Centered Funding Formula (SCFF), providing over \$23 million for enrollment growth and a 5.07% cost-of-living adjustment (COLA) for apportionments. The state budget lengthens the formula's existing hold harmless (minimum revenue) provision by one year, through 2024/25. Under this provision, districts will collect at least their 2017/18 total computational income, adjusted by COLA each year, in years without base cuts. The budget also extends hold harmless provisions for the San Francisco and Compton Community College Districts by two years to 2025/26.

Under Education Code, Section 76300, community college districts are authorized to charge students a fee of \$46 per unit per semester and also authorized the waiver of this fee for students who meet certain criteria. Under Assembly Bill 132 (Higher Education Trailer Bill Language), community college districts are authorized to use accessible emergency relief funds provided by the federal government to waive this fee, if it is not paid by a student due to the impacts of the COVID-19 pandemic.

Also, the Enacted 2021/22 Budget includes a promise to restart the Middle Class Scholarship to assist the total cost of attendance for low and middle income students, including Cal Grant recipients, at UC and CSU. It states an intent to provide \$515 million continuously (on top of the existing \$117 million) beginning in 2022/23, but is subject to appropriation next year, and in future years. It does not incorporate community college students (unless they are enrolled in upper division courses in a community college baccalaureate program).

Therefore, the Fiscal Year 2020/21 Adopted Budget reflects months of collaboration and shared governance efforts. Predicated on the Governor's May Revise Budget and other fiscal assumptions, it served as the foundation for 2021/22 fiscal resource allocations to the Peralta District as determined by the District's Budget Allocation Model. Here then, is the Adopted Budget for Fiscal Year 2021/22, submitted to the Peralta Community College District, the Chancellor and the Board of Trustees.

Adil Ahmed
Interim Vice Chancellor for Finance & Administration

Principles of Sound Fiscal Management

(California Code of Regulations, Title 5, Section 58311)

In any organization certain principles, when present and followed, promote an environment for growth, productivity, self-actualization, and progress. The following principles shall serve as the foundation for sound fiscal management in community college districts. Each district shall be responsible for the ongoing fiscal stability of the district through the responsible stewardship of available resources. Each district will adequately safeguard and manage district assets to ensure the ongoing effective operations of the district. Management will maintain adequate cash reserves, implement and maintain effective internal controls, determine sources of revenues prior to making short-term and long-term commitments, and establish a plan for the repair and replacement of equipment and facilities. District personnel practices will be consistent with legal requirements, make the most effective use of available human resources, and ensure that staffing costs do not exceed estimates of available financial resources.

In addition, each district will adopt policies to ensure that all auxiliary activities that have a fiscal impact on the district comport with the educational objectives of the institution and comply with sound accounting and budgeting principles, public disclosures, and annual independent audit requirements. Each district's organizational structure will incorporate a clear delineation of fiscal responsibilities and establish staff accountability. Appropriate district administrators will keep the governing board current on the fiscal condition of the district as an integral part of the policy- and decision-making processes. Each district will effectively develop and communicate fiscal policies, objectives, procedures, and constraints to the governing board, staff, and students.

Also, each district will have an adequate management information system that provides timely, accurate, and reliable fiscal information to appropriate staff for planning, decision making, and budgetary control. Each district will adhere to appropriate fiscal policies and procedures and have adequate controls to ensure that established fiscal objectives are met. District management will have a process to evaluate significant changes in the fiscal environment and make necessary, timely, financial and educational adjustments. District financial planning will include both short-term and long-term goals and objectives, and broad-based input, and will be coordinated with district educational planning. Each district's capital outlay budget will be consistent with its five-year plan and reflect regional planning and needs assessments.

Description of Funds

The following is a brief discussion of the funds that are included in the District's 2021/22 Adopted Budget.

Unrestricted General (Fund 01)

There are three major sources of revenue that provide the resources necessary to fund the general operations of the District. These major sources are 1) general apportionment, 2) local property taxes, and 3) enrollment fees and tuition that account for approximately 83% of the revenue received.

The General Fund - Unrestricted accounts for all the revenues and expenditures used for financing the general operations of the District. General operations include areas such as Instruction, Student Services, Administration, Maintenance and Operations, and Information Technology.

The California Community Colleges (CCC's) Chancellor's Office began implementation of the new Student Centered Funding Formula (SCFF) in 2018/19. The purpose of the SCFF is to allocate general purpose apportionments to CCCs based upon additional factors, including the number of low-income students enrolled and the number of students who meet specified student success metrics, such as completion of a degree or certificate. For fiscal year 2021/22, the allocation of apportionment funding is based on 70% Full Time Equivalent Students (FTES), 20% Supplemental, and 10% Student Success. Peralta CCD will be held-harmless for fiscal year 2021/22 with our FTES funded at 16,950.

Student Centered Funding Formula (SCFF)

This funding formula is an integral part of the California Community College State Chancellor's Office Vision for Success through Guided Pathways, and was effective for the 2018/19 fiscal year retained the Basic Allocation established under Senate Bill 361 in 2006/07. The new formula, known as the Student Centered Funding Formula, or SCFF, retains funding per full-time equivalent students although at a rate significantly reduced from the SB 361 model.

However, the formula funds districts for outcomes and demographics providing an incentive to improve success for students, especially students from economically disadvantaged backgrounds. The formula as implemented beginning in 2018/19, apportions funding to districts using a base allocation linked to enrollment, an allocation based on demographics designed to address historically unconsidered areas for impacted students, and an allocation based on each district's student academic achievements. The definitions of each of the metrics can be found at the following link: [Definition of Metrics](#)

Under the planned three-year phase-in, the base allocation would have declined from about 70% of total funding to 65% in 2019/20, and 60% in 2020/21. The outcomes allocation, conversely, would increase from about 10% to 15% and 20% in the three years, respectively. However, due to changes and realizations about the funding formula in the 2019/20 and 2020/21 fiscal years, the allocations have remained the same.

Description of Funds (Continued)

Base Allocation

Based District wide enrollment. Formula considers number of colleges and centers within the District. Enrollment for credit, non-credit, and career development and college preparation (CDCP) noncredit courses and enrollment of special admit students and inmates in correctional facilities.

Supplemental

Based on number of low-income students enrolled, determined by Pell grant recipients, College Promise grant recipients, and AB540 students.

Student Success

A student success allocation based on outcomes that include the number of students earning associate degrees and credit certificates, the number of students transferring to four-year colleges and universities, the number of students who complete transfer-level math and English within their first year, the number of students who complete nine or more career education units and the number of student who have attained the regional living wage.

The legislation enacted the SCFF and created a [Student Centered Funding Formula Oversight Committee](#) consisting of 12 members appointed by the Senate Rules Committee, the Assembly Speaker, and the Governor. The Oversight Committee was charged with providing recommendations to the State Legislature and Department of Finance on the implementation of the Supplemental Allocation of the SCFF. The Final Report offered recommendations on [Priority Area One](#) relative to: (1) first-generation students; (2) definition of a low-income student relative to cost of living; and (3) inclusion of incoming students' level of academic proficiency in the SCFF.

Description of Funds (Continued)

For Peralta, the SCFF for the FY 2021/22 year is as follows:

This Adopted Budget reflects the SCFF Allocations for FY 2021/22 based on the Governor's 2021/22 Budget Act. It should be noted that the allocations will change based on revenues received into the California Community College system as a whole as we move through the fiscal year. There are several aspects to the FY 2021/22 SCFF to keep in mind. First are the Hold Harmless provisions. The Budget Act of 2021 extended the hold harmless minimum revenue provisions to FY 2024/25.

Hold Harmless

The revised hold harmless provision ensures that no district will receive less in both Fiscal Year (FY) 2018/19 and FY 2019/20 than it received in FY 2017/18. Thereafter, each district would be held harmless to its FY 2017/18 marginal rate of funding. The Peralta District's hold harmless is based on the State Chancellor minimum guaranteed revenue. The minimum guaranteed revenue for FY 2021/22 is the Total Compensational Revenue of FY 2017/18 plus COLA for FY 2018/19 and FY 2019/20. In this case, for FY 2021/22, our Total Compensational Revenue will be based on FY 2020/21. The minimum guaranteed Total Compensational Revenue amount from the State is \$112,850,361 (includes 5.07% proposed COLA) and the Peralta District's Total Compensational Revenue is \$127,857,819. Our hold harmless amount is \$8,354,922 and Stability Projection Adjustment is \$6,652,536. Since we fall below the guaranteed amount of \$127,857,819, our amount will be the same as the State at \$127,857,819 for FY 2021/22.

Special Revenue Funds:

Community Service Fee-Based (Fund 03)

Bookstore Commission (Fund 07)

Measure E – Parcel Tax (Fund 08)

Facility Rental Fee (Fund 10)

Measure B – Parcel Tax (Fund 12)

Contract Education (Fund 30)

The Community Service Fund is established in support of those instructional and enrichment offerings, not supported by state apportionment, that are designed for the physical, mental, moral, economic, or civic development of persons in attendance.

Bookstore Commission (Fund 07)

The Bookstore Commission Fund is established from a portion of Book Store revenue received, and this revenue is not an integral to the general operations of the district.

Description of Funds (Continued)

Measure E – Parcel Tax (Fund 08)

Measure E was a special parcel tax measure approved by the voters on November 6, 2018. The approval provided the District with an annual parcel tax on all parcels located within the District's boundaries of \$48 per parcel per year for the duration of 8 years. The funding is used for maintaining core academic programs, such as Math, Science, and English; training students for careers; and preparing students to transfer to four-year universities. Funds generated by the measure may only be used to augment (rather than substitute for) funds already allocated for supporting core academic programs.

An annual presentation on the parcel tax plans, expenditures, and progress toward student success and identified outcomes will be prepared by the four college Presidents of the Peralta District for review by the Board of Trustees annually at an October meeting. The report shall provide information regarding (1) the amount of Peralta Community Colleges Education Renewal Measure funds received and spent in that year, and (2) a listing and description of all courses and activities funded by this parcel tax. The report may relate to the calendar year, the fiscal year, or other appropriate annual period, as the Chancellor shall determine and should be incorporated into or filed with the annual budget, audit, or other appropriate reports to the Board of Trustees.

Facility Rental Fee (Fund 10)

The Facility Rental Fund is established from District rental fees received by the District and/or College Offices and these revenues is not an integral to the general operations of the District.

Measure B – Parcel Tax (Fund 12)

Measure B was a special parcel tax measure approved by the voters on June 5, 2012. The approval provided the District with an annual parcel tax on all parcels located within the District's boundaries of \$48 per parcel per year for the duration of 8 years. The funding results in \$8,000,000 annually for eight (8) more years benefiting students in maintaining core academic programs, such as Math, Science, and English; training students for careers; and preparing students to transfer to four-year universities. Under Administrative Procedure 6741, it may not be used for administrative salaries and requires internal and citizens' oversight.

The Parcel Tax is governed by [Board Policy 6741](#) and [Administrative Procedure 6741](#). An annual presentation on the parcel tax plans, expenditures, and progress toward student success and identified outcomes will be prepared by the four college Presidents of the Peralta Community College District for review by the Board of Trustees annually at an October meeting.

Contract Education (Fund 30)

The Contract Education Fund is established in support of contract instructional classes offered at the request of public or private agencies or groups. These programs are normally closed to the general public and are therefore not eligible for apportionment in accordance with the Education Code.

General Obligation Bond Fund – Measure G (Fund 43)

Bond Construction Funds are used to account for the proceeds from the sale of bonds and to be used for the acquisition or construction and all expenditures of authorized projects.

General Obligation Bond fund 43 is used to account for revenues and expenditures related to 2018 Measure G. 2018 Measure G was an \$800 million bond measure approved by District voters on November 6, 2018. Proceeds of bonds issued under such authorization are deposited in Fund 43 pending their expenditure on authorized projects. The District's most recent bond issue under 2018 Measure G, \$50 million of Series A Bonds, were sold on May 5, 2020. After such issuance, the District has \$750 million of remaining bond authorization to be issued under 2018 Measure G.

Proceeds of bonds issued under such authorization are deposited in Fund 63 pending their expenditure on authorized projects. The District's most recent bond issue under 2006 Measure A, \$65 million of Series E Bonds, were sold on May 5, 2020. After such issuance, the District has no remaining bond authorization to be issued under 2006 Measure A.

Description of Funds (Continued)

Child Development Fund (Fund 68)

The Child Development Fund accounts for the revenues and expenditures for the operations and support of child care and development services. Sources of revenue within this fund include grants from the state and parent fees.

Other Post-Employment Benefits Reserve (Fund 69)

The Retiree Health Benefit Trust Fund accounts for resources and expenditures towards current and future liabilities related to health benefits for retirees.

For budgeting purposes, we use the term the “OPEB Bond Program” to refer to the total sources and uses of funds related to those pre-2004 employees eligible for benefits paid by the District, including payments for retiree health benefits and bond related costs and all sources of funds used to cover such costs. The purpose of this section is to provide a complete picture of the OPEB Bond Program across all the District’s funds, including the trust fund from which the District pays retiree health benefit costs.

OPEB Bond Program Sources include three specific funding streams:

- A dedicated OPEB appropriation (formerly the OPEB Charge)
- A supplemental general fund appropriation
- Fund balance in Trust I

OPEB Bond Program Uses include retiree health benefits, bond debt service, interest rate swaps, and ancillary and professional fees.

Background

In 2005, the District issued and sold its Taxable 2005 Limited Obligation Other Post-Employment Benefits Bonds (the “**OPEB Bonds**”), pursuant and subject to an Indenture of Trust, dated as of December 1, 2005 (the “Indenture”), to provide certain health care benefits for eligible District employees, and certain of their dependents, who were hired on or before June 30, 2004. Net bond proceeds from the sale of the OPEB Bonds were transferred to a separate fund, known as the “Retiree Health Benefit Program Fund” or “Trust I”, to be held in trust and invested, subject to the terms of the Indenture.

The District has restructured and deferred bond principal three times after the initial issuance of the OPEB Bonds (in 2006, 2009, and 2011), that provided near-term cash flow relief for the District at the cost of increasing long-term debt service.

In 2015 and 2020, the District converted the B-2 and B-3 Tranches respectively from auction rate mode to variable rate mode. These conversions did not extend or alter the existing maturity of the bonds.

Sources of Funds

Dedicated OPEB Appropriation (formerly the OPEB Charge) & OPEB Special Reserve Fund (District Fund 69)

In fiscal year 2010/11, the District implemented an “OPEB Charge” to provide additional revenue to supplement funds available in the OPEB Trust to pay for Other Post-Employment Benefits in response to specific findings outlined in an ACCJC letter dated June 30, 2011.

Description of Funds (Continued)

The OPEB Charge is a District-paid appropriation dedicated to making OPEB Bond related payments. The OPEB Charge is fully paid for by the District's funds and is not an amount that is collected from any employee. As such, funds are not related to any specific benefit to any specific employee or groups of employees nor is it an off-set to negotiated salary. Dedicated OPEB Appropriations are typically transferred to the OPEB Special Reserve Fund (Fund 69).

The budgeted source of funds from Fund 69, inclusive of the Dedicated OPEB Appropriation for budget year 2021/22 is \$6,612,128.

Supplemental General Fund Appropriation (District Fund 01)

In addition to the Dedicated OPEB Appropriation, the District has made supplemental appropriations of general fund monies to cover OPEB Bond Program Uses. In fiscal year 2021/22, the amount of such apportionment is \$2.3 million.

Uses of Funds

Bond Debt Service, Fees, and Interest Rate Swaps

The District is currently paying principal and interest on three outstanding series of bonds. The B-3 Tranche is currently in weekly variable rate mode. As such, the District is paying Barclays Bank a fee to provide a letter of credit, which is required for variable rate bonds. The District is also paying a remarketing agent fee to Barclays to market the securities and reset the interest rate on a weekly basis.

In 2006, the District entered into six forward starting interest rate swaps corresponding with the six series of convertible zero coupon securities, B-1 through B-6. On August 5, 2020, the third swap related to the B-3 tranche became effective. The District is paying a fixed rate of 5.279% and receiving one-month LIBOR. Historically, the fixed rate that the District has paid on its outstanding swaps exceeded its receipts. This negative spread is projected to continue in 2021/22 and is included in the OPEB Bond Program Uses.

In addition, the District has associated fixed costs of issuance with the conversion and remarketing of the 2005 B-3 Bonds.

The total budgeted amount for bond debt service, fees, and interest rate swaps is \$15.2 million (\$6.0 million, fund reserve 69; \$2.3 million, fund 01; and \$6.9million, fund 94).

Budget Allocation Model (BAM)

BAM History and Partnership between the District Office & the Colleges

The Chancellor, under the direction of the Governing Board, is responsible for the successful operation, reputation, and fiscal integrity of the entire Peralta Community College District. This is based on Board Policy 3250 and Administrative Procedure 3250 (Institutional Planning) which defines and clarifies district-wide processes for developing recommendations leading to decision-making.

Historically, the move from an expenditure based funding method to a revenue based allocation model was a culture shift. The transition the PCCD Budget Allocation Model required changes in many areas including: accountability, autonomy, transparency, regulatory compliance, and expenditures.

On the broadest level, the purpose of this partnership is to encourage and support collaboration between the colleges and the district office. The colleges have broad oversight of institutional responsibilities while the district office primarily ensures compliance with applicable statute and regulatory compliance, as well as, essential support functions. With the understanding that the colleges have primary authority over educational programs and student services functions each college develops autonomous and individualized processes to meet state and accreditation standards. The college president shall be responsible for the successful operation and performance of the college.

BAM Oversight

The Budget Allocation Model does not diminish the role of the Chancellor nor does it reduce the responsibility of the college or district office staff to fulfill their fiduciary role of providing appropriate oversight of operations. Instead, it opens communication for further inclusion throughout the colleges and district in the form of shared governance with respect in the decision making process.

BAM Calculation

The BAM model is calculated based on three-year averages FTES for each college. Once the three-year average for each College is calculated, the Total Computation Revenue is added to other revenues to determine the total revenues. Districtwide costs are excluded from the total revenues. Then, the Full-Time and Part-Time Faculty salaries and benefits are removed. The remaining available revenues are allocated to the colleges based on the three-year average percentages after the District Office costs and Centralized Costs are
