

GoSafe Pro Upgrades Popular Thermal Scanner to Fully Customizable Entryway Manager

San Diego | April 12, 2021

Thousands of GoSafe temperature scanners already protect entryways all over the world. Now GoSafe Pro expands on the device's core capabilities to meet the unique entryway control requirements of each organization.

In the summer of 2020, OneScreen introduced GoSafe to simplify temperature scanning, mask verification and facial recognition for schools, businesses, government offices and public spaces. Now, a host of upgrades and enhancements to the software and hardware have come together in GoSafe Pro, specifically addressing the unique access control requirements of individual schools and businesses.

The enhancements incorporated into GoSafe Pro that allow advanced customization include:

- AI-enabled Management Console built by OneScreen, opening up far greater device control
- GoSafe Prescreen for sending questions to visitors by email, web page or QR code
- Improved facial recognition with 99.9% accuracy
- Upgraded security for data storage and handling using SQL8

“GOSAFE PRO BUILDS ON THE EXISTING STRENGTHS OF THE ENTRYWAY MANAGEMENT SYSTEM AND EXPANDS ITS ABILITY TO HANDLE A VARIETY OF ACCESS CONTROL REQUIREMENTS. THIS INCLUDES AN ADVANCED MANAGEMENT CONSOLE, ALONG WITH MORE SENSITIVE SENSORS, AN UPGRADE CAMERA AND MORE SECURE ENCRYPTION ON THE DATABASE, BUT THOSE IMPROVEMENTS ARE JUST THE BEGINNING. WE INVITE YOU TO DISCOVER ALL THAT GOSAFE PRO CAN DO.”

~ Sufian Munir
CEO, OneScreen.

The announcement came from OneScreen CEO Sufian Munir, who said, "GoSafe Pro builds on the existing strengths of the entryway management system and expands its ability to handle a variety of access control requirements. This includes an advanced Management Console, along with ore sensitive sensors, an upgrade camera and more secure encryption on the database, but those improvements are just the beginning. We invite you to discover all that GoSafe Pro can do."

GoSafe Pro is available through resellers all over the planet. More details, spec sheets and videos are online at the [OneScreen website](#) and [YouTube channel](#).

About OneScreen

OneScreen is a complete smart school technology provider with expertise in video collaboration and AI. We've discovered through experience that only the finest quality unified communications can bring people together with both the simplicity and the detail they need. For nearly a decade, OneScreen has been a leading force in presenting the world with advances in audio-video, presentation and communications technologies.
